14. Telecom Response Promotional Offering

Business Customers, in the Company's local serving area, who receive a comparable offer from a competitor, may be eligible to receive the following promotional option.

To qualify for the promotion, eligible Customers must commit to a minimum monthly volume commitment of one hundred dollars (\$100) for a period of one year. The Customer's entire long distance usage will contribute to the satisfaction of the monthly volume commitment. If the Customer fails to satisfy the minimum monthly commitment they will be billed the difference between actual usage and the monthly volume commitment for each month. The difference for each month shall be billed within the sixty (60) day period following the end of the contract year. If the Customer terminates this agreement prior to completion of the one year commitment, the Customer will be billed the difference between the tariffed rates and the promotional rates for one hundred percent (100%) of the monthly commitment multiplied by the number of billing months remaining in the contract term plus one hundred dollars (\$100).

The promotional rates apply to domestic 1+, 800 and Calling Card service only. Standard tariffed Business rates apply to all other calls, including international calling. At the end of the one year commitment the Customer will revert to standard tariffed Business rates. This offer will remain in effect indefinitely, unless sooner changed or canceled by a subsequent tariff filing.
