

PSC No. 1 - WATER
COMPANY: LONG ISLAND WATER CORPORATION d/b/a
LONG ISLAND AMERICAN WATER
INITIAL EFFECTIVE DATE: JULY 31, 2008

STATEMENT TYPE: SIC
STATEMENT No.: 1

GENERAL INFORMATION

SYSTEM IMPROVEMENT CHARGE (SIC)

The SIC surcharge will apply to costs associated with the construction specific reviewed and approved projects. The specific projects are an iron removal facility at plant No. 8, and an iron removal facility at plant No. 15, or such other source of supply, treatment of other major system projects as mutually agreed upon by the Company and the Public Service Commission.

System Improvement Charge

When the Company has incurred actual expenditures for the plant No. 8 and plant No. 15 iron removal facilities, and they have been placed in service, then the amount of those expenditures (net of the associated (1) retirements, (2) accumulated deferred income taxes ("ADIT"), and (3) accumulated depreciation reserve, i.e., the net rate base ["NRB"]) will constitute the incremental rate base investment subject to the SIC.

The SIC filing will be made within 30 days after the project has been placed into service. The Company will provide Staff with detailed project information regarding the SIC (such as service dates, actual expenditures incurred and retirements). Staff will have the balance of the 60 days to verify such data.

The formula for the calculation of the SIC surcharge is as follows:

$$\text{SIC surcharge} = ((\text{NRB} \times \text{Pre-tax ROR}) + D) / \text{AR} \quad .$$

Where:

NRB = the cost of the applicable system improvement facilities, net of associated (1) retirements, (2) ADIT and (3) accumulated depreciation reserve

Pre-tax ROR = 10.48%

D = the annual depreciation expense on the net additions

AR = projected annual metered revenues.

Effective with this statement, the SIC surcharge is x.xx%.
