

PSC NO: 2 – ACCESS SERVICES  
SBC Long Distance, LLC d/b/a SBC Long Distance,  
d/b/a AT&T Long Distance  
Initial Effective Date: February 17, 2006

Addendum Type: PL  
Addendum Number: 1

#### 4.0 RATES AND CHARGES

##### 4.1 Tandem Switched Transport

Provides the transmission path between the LEC access tandem and the Company end office. The use of this facility requires an access service order (ASR) from the IXC to the LEC. Once access to the LEC tandem is secured, transmission may occur over the interconnection trunks identified for traffic to the Company end office. Tandem Switched Transport facilities include circuits provided for the common use of all IXC Customers who have requested tandem switching

|                           | <u>Per Minute</u> | <u>Per Mile</u> |
|---------------------------|-------------------|-----------------|
| Tandem Switched Transport |                   |                 |
| Originating / Terminating | \$ .000000        | \$ .000030      |
| Multiplexing              |                   |                 |
| Originating / Terminating | \$ .0000          |                 |

##### 4.2 Local Switching

Local switching provides local end office switching and End User termination functions necessary to complete the transmission of Switched Access communications to and from the End Users served by the local end office

|                           | <u>Per Minute</u> |
|---------------------------|-------------------|
| Local Switching           |                   |
| Originating / Terminating | \$ .002080        |

#### 4.3 Dedicated Transport

##### 4.3.1 Entrance Facility

An entrance facility provides for the facility between the Customer's premises and the Company serving wire center (SWC). It is dedicated to the use of a single IXC Customer and allows DS1 and DS3 capacity. The capacity type defines the technical characteristics and types of signaling capability associated with the connection. An Entrance Facility is provided even if the Customer's premises and the SWC are located in the same building.

|                         | <u>Monthly Rate</u> |
|-------------------------|---------------------|
| Entrance Facility (DS1) | \$235.00            |
| Entrance Facility (DS3) | \$2,315.00          |

##### 4.3.2 Direct Trunk Transport

Direct Trunk Transport provides the transmission facility between the Company's SWC and the Company's end office or the interconnected LEC access tandem. Direct Trunk Transport facilities are dedicated to the use of a single Customer and are available based on capacity, DS1 or DS3. Direct Trunk Transport is not available to end offices that do not have the necessary recording and measurement capabilities, i.e. remote switching offices.

|                              | <u>Monthly Rate</u> |
|------------------------------|---------------------|
| Direct Trunk Transport (DS1) | \$116.32            |
| Direct Trunk Transport (DS3) | \$1,262.13          |

|------------------------|----------|
| Dedicated Multiplexing | \$821.75 |
|------------------------|----------|

|                        |          |
|------------------------|----------|
| DTT Mileage (per mile) |          |
| DS1                    | \$21.62  |
| DS3                    | \$102.13 |

#### 4.4 Ordering Charges

##### 4.4.1 Access Order Charge

A nonrecurring, per occurrence charge assessed for the processing of access orders, is applied per access order for the installation, addition, change, rearrangement or move of Access Services.

##### Non-Recurring Charge

|                     |         |
|---------------------|---------|
| Access Order Charge | \$50.00 |
|---------------------|---------|

##### 4.4.2 Design Change Charge

A nonrecurring per occurrence charge assessed for any change to an access order which requires an engineering review or reevaluation of facilities needed in order to implement the requested access service, i.e. access design requires the Company to purchase UNEs, interconnection trunks etc..

##### Non-Recurring Charge

|                      |         |
|----------------------|---------|
| Design Change Charge | \$60.00 |
|----------------------|---------|

Addendum Type: PL  
Addendum Number: 1

4.4.3 Service Date Change Charge

A nonrecurring per occurrence charge assessed for the change in service date changes of the initial access service order or rearrangement, provided the new service date is no more than 30 days beyond the original service date.

Non-Recurring Charge

Service Date Change Charge

\$65.00

4.4.4 Expedited Order Charge

A nonrecurring per occurrence charge assessed for requests that service be provided on an earlier date than originally requested on the access service order. If the Company determines that service can be provided on an expedited basis without additional costs to the Company, the expedited request will be accepted.

Non-Recurring Charge

Expedited Order Charge, plus  
Additional Labor costs

\$75.00

4.4.5 Access Order Cancellation Charge

A nonrecurring per occurrence charge assessed for any change to an access order which requires an engineering review or reevaluation of facilities needed in order to implement the requested access service, i.e. access design requires the Company to purchase UNEs, interconnection trunks etc..

Non-Recurring Charge

Access Order Cancellation Charge, plus  
Additional Labor costs

\$75.00

#### 4.5 800 Service Charges

The following charges are assessed for 800 Query provisioning and the associated usage. These charges are in addition to any Switched Access FGD charges assessed for use of the Company Network, i.e. originating local switching.

##### 4.5.1 800 Query Transport

A recurring, per query charge, assessed for each SS7 transported 800 query, sent to the Company's 800 Gateway vendor for delivery to the SMS Database, whether the call is completed or not.

|                                | <u>Per Query</u> |
|--------------------------------|------------------|
| 800 Query Transport, per query | \$.03            |

##### 4.5.2 800 Number Translations

A recurring, per query charge, assessed per POTS or CIC translation response, sent to the Company's 800 service provider(s) (IXCs) and is in addition to the 800 Query Transport charge.

|                                   | <u>Per Query</u> |
|-----------------------------------|------------------|
| 800 Number Translation, per query | \$.003           |

4.6 Description of CARE products and the associated rates

- 4.6.1 PIC Changes – Changes to initial PIC or supplemental changes, additional lines or additional PIC changes on lines on the same order. (This rate is billed to the End User unless the IXC agrees to absorb the PIC change charge.)

|                                     |        |
|-------------------------------------|--------|
| Changes to initial PIC              | \$5.00 |
| Changes to initial PIC              |        |
| - each billed on additional line(s) | \$1.47 |

- 4.6.2 Mergers – Used to facilitate a LEC merging Carrier Identification Codes (CICs) and needing to change the PIC on all End User Customers from one CIC to another.

|                                    |        |
|------------------------------------|--------|
| Per Working Telephone Number (WTN) | \$5.00 |
|------------------------------------|--------|

- 4.6.3 Unauthorized PIC Change Charge – Charge to IXC when an unauthorized PIC change occurs.

|                                    |         |
|------------------------------------|---------|
| Per Working Telephone Number (WTN) | \$10.00 |
|------------------------------------|---------|

- 4.6.4 Billing Name and Address (BNA) – CARE process where BNA information is transmitted to and from LECs.

|                                    |       |
|------------------------------------|-------|
| Per Working Telephone Number (WTN) | \$.30 |
|------------------------------------|-------|
