**116 Minimum Usage Requirement**

The Minimum Usage Requirement will apply in each billing cycle in which a Customer's qualifying Excel charges do not meet the minimum usage amount. The amount assessed for the Minimum Usage Requirement is the difference between the minimum usage amount of \$50.00 and the Customer's qualifying charges in a billing cycle. The Minimum Usage Requirement will not apply to customer accounts with no Excel charges in a given billing cycle or to accounts with existing monthly minimums greater than \$50.00.

Qualifying charges to be applied toward calculating the monthly usage minimum will be derived only from the following Excel charges: all long distance, calling card, toll free, conference calling and directory assistance usage, Carrier Cost Recovery Fee as well as any monthly recurring or non- recurring charges associated with the Customer's Excel services.
