DS3/1 Mux (Fanout) Rate Schedule

This service consists of up to 28 DS1 (1.544 Mbps) digital channels, which are aggregated at a TCG Node onto a standard DS3 circuit with Interoffice Mileage and a Local Distribution Channel at the terminating end. There is a minimum 1-year service period for each Fanout DS1 Service.

*One DS3 Local Distribution Charge

** One DS1 Local Distribution Charge applies to each individual DS1 Fanned out from Node.

Note:

Fanout circuit mileage and pricing should be determined by the customer's preferred routing scheme (i.e., based on mileage between BOC Central Offices serving the circuit endpoints) and not on TCNY node location(s) where the circuit(s) are actually being routed. For example, a customer may designate the NYNEX E. 38th Street Central Office as his preferred fanout location. Although TCNY may choose to route this circuit through its Empire State Building node, the mileage and pricing should be based on a fanout through E. 38th Street C.O.
