 $<sup>^{1}\</sup> Based\ on\ 2001\ forecast\ in\ National\ Grid\ USA\ and\ Niagara\ Mohawk\ Joint\ Proposal\ merger\ filing.\ \underline{Updated\ Forecast\ as\ of\ Jan.\ 2011}$ 

<sup>&</sup>lt;sup>2</sup> Based on Rule No. 43.5.1 and Fourth Revised Leaf No. 71-Q1 to PSC No. 207 Electricity effective December 19, 2005 whereby the New York Public Service Commission and National Grid agreed to apply a monthly cap to limit the difference between forecasted and actual transmission revenue in one month to alleviate the impact when these situations occur. Specifically, the monthly cap is \$6 million on the monthly TRA calculation, plus or minus, with any excess deferred over to the next cost month. If the \$6 million cap is reached for another two consecutive months, the cap will be raised to \$8 million, on a going forward basis.
