TARIFF FORMAT

- A. Leaf Numbering - Leaf numbers appear in the upper right corner of the Leaf. Leafs are numbered sequentially. However, new leafs are occasionally added to the tariff. When a new leaf is added between leafs already in effect, a letter is added. For example, a new leaf added between Leafs 14 and 15 would be 14.1.
- B. Leaf Revision Numbers - Revision numbers also appear in the upper right corner of each Leaf. These numbers are used to determine the most current leaf version on file with the Commission. Because of various suspension periods, deferrals, etc., the most current leaf number on file with the Commission is not always the tariff Leaf in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
 - 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.

If the minimum period of service for the requested facilities and service is more than one month, the Customer may also be required to deposit a sum up to an amount equal to the total charges for service for the minimum service period less any connection charge paid by the Customer.

The fact that a deposit has been made shall in no way relieve the applicant or Customer from complying with the tariff regulations for the prompt payment of bills on presentation. 2.13 USE OF CUSTOMER'S SERVICE BY OTHERS

2.13.1 Customers and Authorized Users

Services provided hereunder are provided solely for the use of the Customer and End Users authorized by the Customer. Customers may not resell such Service to a third party for any form of compensation.

2.13.2 Relocation, Transfers and Assignments

- A. Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the Service and facilities provided by the Company without the written consent of the other party, except that the Company may assign its rights and duties (a) to any subsidiary, parent company or affiliate of the Company, (b) pursuant to any sale or transfer of substantially all the assets of the Company; or (c) pursuant to any financing, merger or reorganization of the Company. Transfer of all or a portion of a Customer's account, the Service or the Company's equipment by the Customer to any other person or entity, or to a new residence or other location, is prohibited.
- B. Transfer of all or a portion of the Voice Service or the Company's Equipment by Customer to any other person or entity, or to a new residence or other location, is prohibited. Access to emergency 911 services will therefore be limited if the voice-enabled cable modem is moved from the original service location. Customers must contact Company to request the relocation of Service to a new service address.

I. Mobility Package **

(T)

1. Description

The Mobility Package includes features that allow Customers to be highly mobile while still connected to their Business Voice Service phone lines. The package includes the following features:

- Simultaneous Ring – Allows Customers to have multiple phone numbers ring simultaneously when calls are received on their Business Voice Service phone. The first line to answer will be connected and the other lines will be released. If any line goes to voicemail then the other lines will be released. The Customer can have up to five (5) additional terminating locations, including non-Company numbers, in addition to their main line. Telephone numbers must be a 10-digit domestic telephone number.
- Sequential Ring – When the Customer's phone is called, this feature rings up to five (5) additional phone numbers in sequence. The initial phone number will ring and after a preset number of rings the next phone number will ring and then the next numbers until the call is picked up or the call goes to voicemail or other no-answer processing from the main number. The caller can wait until the call is answered or leave a message at any point by pressing a key on their handset.

If any of the lines are answered while ringing (including voicemail) then the Sequential Ringing will stop and the call can be completed. If no lines are answered then the call is sent back to the main line for processing (Voicemail, CFNA, etc.).

** Effective June 11, 2017, Mobility Package will be unavailable to new Customers. Customers currently subscribed to Mobility Package may continue to receive the Service (*i.e.*, is “grandfathered”) until Cancellation of Service or Termination of Service or otherwise as described pursuant to a notice of planned Service discontinuation provided by the Company to the User and to the Commission.

3.4 CRITICAL FACILITIES ADMINISTRATION SERVICE

3.4.1 Program Overview

- A. Facilities-based carriers are responsible to provide data on the physical path of qualified circuits to customers who request such information. Such carriers are required to maintain facilities associated with qualified circuits in such a manner as to ensure that notification of a change in the physical routing of a qualifying circuit is communicated quickly to the affected customer, and the physical path data promptly updated. Such carriers will maintain the data and establish appropriate methods of identification and authentication to secure the data and restrict access by each customer to information relative to that customer's qualifying circuits.
- B. Customers are required to demonstrate for each qualifying circuit that the circuit has been registered under the federal Telecommunications Service Priority program in order to participate.

3.4.2 Customer Obligations

Customers participating under the Critical Facilities Administration program will be required to:

- A. Identify critical facilities by enrolling circuits in the federal Telecommunications Service Priority program, and demonstrating the sponsorship of a federal agency supporting the designation of those circuits as qualifying under the federal Telecommunications Service Priority program. Such circuits will be referred to as "qualifying circuits."
- B. Subscribe to the Critical Facilities Administration service offered by their carrier, and identify which qualifying circuits it wishes to enroll in the service. Such circuits will be referred to as "subscribed circuits."

3.4.3 Carrier Obligations

Facilities-based carriers will be obligated to identify the physical path of each subscribed circuit as follows:

- A. Physical path information will be provided by reference to the latitude and longitude coordinates of suitable points along the circuit's path (e.g., cable entrances to buildings, manholes, riser poles, crossboxes, carrier equipment cabinets, and other circuit access points in the outside plant of the carrier) so as to allow the customer to ascertain with a reasonable degree of accuracy the actual physical path of each subscribed circuit.
- B. Physical path information for newly provisioned subscribed circuits is to be available to the customer within 5 business days after the circuit has been installed, and within 15 business days for existing, in-place subscribed circuits.
- C. Any planned moves, changes, or rearrangements that affect the physical path of a subscribed circuit are to be communicated at least 24 hours in advance to the customer, and information related to a move, change, or rearrangement that was as a result of unplanned activity is to be provided within 24 hours of the change.
- D. Updated information regarding the revised physical path of subscribed circuits would be available to the customer within 5 business days for planned actions, and within 15 business days for unplanned activities.
- E. Provision of the service would be suspended altogether in the instance of a major telephone outage. Once restored to service, current physical path information for a subscribed circuit would be developed and made available to the customer within ninety days of the restoration of service.
- F. The carrier must establish a secure database or other means that would allow the customer to obtain information of the physical path for only its subscribed circuits, subject to appropriate authentication and authorization. Where practicable, the information should be made available on a 24 hour by seven day basis.
