Superseding Revision:

## BASIC LOCAL SERVICE

### A. GENERAL BASIS OF EXCHANGE RATES

#### 1. General

Exchanges are classified by rate groups to determine local service charges. The rate group is based on total access lines in the local calling area and is calculated as follows:

<u>Rate Group</u>	<u>Access Lines in the Local Calling Area</u>
1	1 - 1,300
2	1,301 - 3,700
3	3,701 - 9,500
4	9,501 - 19,000
5	19,001 - 32,000
6	32,001 - 65,000
7	65,001 - 140,000
8	140,001 - 230,000
9	230,001 - 420,000

For local service charges see Section 6.

#### 2. Changes in Rate Groups

The rate group of an exchange could change, based on more or fewer lines in the local calling area. To make such a change, the Telephone Company is required by law to file a tariff and have it approved by the Public Service Commission.

#### 3. State Revenue Taxes

Rates and charges that apply to the provision of telephone service are subject to New York State revenue taxes. The applicable Gross Revenue Surcharge rates are listed in Section 9.

#### 4. Local Utility Gross Revenue Taxes

Rates and charges that apply to the provision of telephone service may be subject to gross revenue taxes imposed by certain municipalities. The applicable surcharges are listed in Section 9.

### C. INDIVIDUAL SERVICE

#### 1. Definition

Individual line service is exchange service providing an access line for one customer only. Two or more individual lines of the same subscriber may be grouped for incoming service, if the lines are of the same class of service, are served from the same central office and terminate in stations on the same premises.

#### 2. General

Individual line residence message rate service without a message unit allowance (1MR-0) is furnished subject to the following conditions:

a. Foreign exchange service is not furnished in connection with 1MR-0 service.

#### 3. Rates

### D. FLAT-RATE LATA-WIDE RESIDENCE SERVICE

#### 1. Definition

Flat-Rate LATA-wide Residence Service allows residence customers to place an unlimited number of calls within the Rochester LATA.

#### 2. Regulations

a. There is no charge to customers who switch to Flat-Rate LATA-wide Residence Service or from Flat-Rate LATA-wide Residence Service.

#### b. Demonstration Period

##### 1) General

The Demonstration Period gives the Telephone Company the option of waiving recurring charges, nonrecurring charges, or both, in order to promote the sale of Flat-Rate LATA-wide Residence Service.

##### 2) Regulations

a) The Telephone Company reserves the right to waive any or all of the recurring charges, nonrecurring charges, or both, associated with Flat-Rate LATA-wide Residence Service at any time upon 1 days' notice to the Commission.

b) Individual promotional periods will not exceed 120 days.

c) Appropriate notification of waived charges will be made to eligible customers.

3) Customers of Flat-Rate LATA-wide Residence Service may not subscribe to optional calling plans.

#### c. Rates and Charges

	<u>Monthly Rate</u>

## BASIC LOCAL SERVICE

### E. LOCAL MEASURED SERVICE (LMS)

#### 1. General

- a. Business and residence telephone services are offered within the specific exchanges at the monthly local service rates shown subject to the provisions specified on the related local exchange leaves.
- b. The local service charge for residential message rate service includes an allowance of 0, 50 or 80 local messages as specified. Messages in addition to the allowance are charged a rate for each message. Basic Lifeline Telephone Service is described in Section 8.

#### Rate

Messages in addition to the allowance, each message      \$.083

- c. This is a timed service for local calling provided as the standard service for business customers who are served by Central Offices with LMS measuring capability.
- d. LMS consists of four separate rate components, a first, second, third minute charge and a charge for each additional minute. The additional minute charge is assessed for every minute (or fraction thereof) in excess of the initial three minutes.

## BASIC LOCAL SERVICE

### F. AUXILIARY LINES

#### 1. Definition

An auxiliary line is a central office line, which may be furnished to supplement individual line or private branch exchange service for residence and business customers. It has the same calling area as the related service.

#### 2. Regulations

- a. The auxiliary line termination must be located on the premises at which a termination of the main service is located.
- b. An auxiliary line may be in the same incoming service group with the individual line.
- c. All calls made over an auxiliary line are charged for as if made over the individual line or private branch exchange trunks.

#### 3. Demonstration Period

##### a. General

The Demonstration Period gives the Telephone Company the option of waiving recurring charges, nonrecurring charges, or both, in order to promote the sale of Auxiliary Lines.

##### b. Regulations

- 1) The Telephone Company reserves the right to waive any or all of the recurring charges, nonrecurring charges, or both, associated with Auxiliary Lines at any time upon 1 days' notice to the Commission.
- 2) Individual promotional periods will not exceed 120 days.
- 3) Within a promotional period, individual line subscribers may be offered the use of Auxiliary Lines through a free trial program of up to 60 days. The purpose of this offering is to acquaint subscribers with the benefits of this service. If, at the conclusion of the free trial program, the subscriber elects to retain the service, rates specified in this Section will apply from the date the service was permanently established. Installation or service charges for this initial installation may not apply. A customer can take advantage of this offer only once within the same serving central office.
- 4) Appropriate notification of waived charges will be made to eligible customers.

## BASIC LOCAL SERVICE

### G. STATIONS

#### 1. Definition

- a. A station is the telephone itself (or other equipment) connected to an access line for the same customer and the same telephone number.
- b. An inside wire or wired outlet is the wiring and the point where the wiring ends in a jack, connecting block or other place where equipment can be connected.

#### 2. Regulations

##### a. Individual and Auxiliary Lines - Business

A station may be located on any premises of the subscriber or premises of the subscriber's employees, provided the use is restricted to the subscriber, the subscriber's employees and joint users. A station may be located on the premises of another subscriber, subject to the following conditions:

- 1) Some form of exchange service, other than public telephone is furnished continuously under a separate contract in the same building and on the same premises as the station.
- 2) The station is furnished with the understanding that the use is restricted to intercommunication service or for the completion of incoming calls.

##### b. Individual and Auxiliary Lines - Residence

A station may be located in any part of the home or apartment as the main service. A station can also be located outside the residence subject to the following conditions:

- 1) The station is used only for incoming calls and internal communications.
- 2) Some form of local service, other than public telephone, is provided.
- 3) If a residence station is provided at a business location, the residence service must be of the same type as the business service.

##### c. Semi-Public Service

Stations without coin collecting equipment and without dials are provided only for the completion of incoming calls.

##### d. Number of Bells - The number of bells which may be connected to a line is limited as follows:

Individual line	4 bells
