SERVICE CLASSIFICATION NO. 5 (CONT'D)
Private Outdoor Lighting

SPECIAL PROVISIONS:

- A. The Municipal Commission of Boonville will furnish, install, own, operate, and maintain an enclosed, photo-electrically controlled luminaire complete with at least thirty (30) inch pipe bracket, ballast and from one hundred (100) watt to one thousand (1000) watt multiple lamp. New or replacement luminaires will be in-kind while available in existing inventory. Once the existing inventory is exhausted, all new or replacement luminaires will be LED.
- B. The lighting unit will be installed only on private property owned or leased by the customer. The customer will furnish the necessary pole or other support, except as hereinafter provided, and the necessary wiring to connect the unit on the line side of the customer's meter. The Municipal Commission of Boonville reserves the right to require a mounting height which will provide proper light distribution from the unit. Where a Municipal Commission of Boonville-owned pole is appropriately located on premises owned or leased by the customer, the Municipal Commission of Boonville may waive the requirement that the support be furnished by the customer, and it may install the unit on the Municipal Commission of Boonville-owned pole.
- C. Upon request of the customer, the Municipal Commission of Boonville will change the location of the lighting unit, providing a proper support is furnished and the customer agrees to pay the Municipal Commission of Boonville for the cost incurred in making such change.
- D. Lighting service will be provided every night and all night during the hours between thirty (30) minutes after sunset and thirty (30) minutes before sunrise, aggregating about four thousand (4,100) hours per year, unless prevented by accidents or other causes beyond the control of the Municipal Commission of Boonville.
- E. The customer shall notify the Municipal Commission of Boonville whenever the lamp shall become extinguished or out of service for any reason and the Municipal Commission of Boonville shall replace the lamp and/or make the necessary repairs with reasonable promptness.

PURCHASED POWER ADJUSTMENT CHARGE (PPAC)

APPLICABILITY

All customers receiving service under any of the Municipal Commission of Boonville's Service Classifications are subject to purchased power adjustment charges.

ADJUSTMENT CHARGE

The PPAC shall be the amount added to each kilowatt-hour of each rate schedule to reflect and recover all purchased power and transmission cost billed to the Municipal Commission of Boonville from all service providers.

CALCULATION OF THE PPAC

The PPAC shall equal the total cost of all power and transmission costs billed to the Municipal of Boonville in each month divided by the total kWh purchases in that month, less the base cost of purchased power measured at system input level adjusted by a loss factor (Factor of Adjustment) of 1.085390. The resultant cost per kWh shall be rounded to the nearest \$0.000001 and applied as a charge or credit to all kilowatt-hours billed in the following month.

ANNUAL RECONCILIATION

At the end of each fiscal year the Municipal Commission of Boonville will perform an annual reconciliation to determine whether there was an under- or over-collection of purchased power expense during the preceding year. The calculation is as follows:

Total Purchased Power Cost – (kWh sold x Base Cost of Purchased Power x Factor of Adjustment)

The result will then be compared to the actual PPAC revenues recovered during this period to determine if a PPAC Reconciliation Surcharge or Refund is applicable. The resultant Surcharge or Refund will be included as a line item in the following month(s) calculation(s) of PPAC in order to adjust revenues to more accurately reflect actual expenses. The number of months over which the Surcharge or Refund will be included will depend on the size of the Surcharge or Refund. If the Surcharge/Refund is under \$5,000 it will be included in one month. Surcharges/Refunds between \$5,000 and \$10,000 will be split between two months and any Surcharges/Refunds over \$10,000 will be charged/credited in \$5,000/month increments until complete in order to minimize the impact on rate payers.

BASE COST OF POWER

The base cost of power for computation of the PPAC shall be \$0.022238 /kilowatt-hour as measured at the system input level. The base cost of power measured at the sales level shall be \$.024297/kilowatt-hour.

Issued by: Robert Schneider, Superintendent, 13169 State Rt. 12, Boonville, NY 13309
