SECTION 3 - INDIVIDUAL, PARTY AND PRIVATE BRANCH EXCHANGE SERVICE

A. INDIVIDUAL AND PARTY LINE SERVICE

1. Individual line service is the grade of exchange service providing a central office line and station for one subscriber only. Two or more individual lines of the same subscriber may be grouped for trunk hunting service, if the lines are served from the same central office and terminate in stations on the same premises. Individual line service is furnished as specified in Section 10.
2. Party line service is the grade of exchange service providing a central office line and stations for two or more subscribers. Party line service is furnished as specified in Section 10.
3. PBX trunk service, at tariffed rates may be substituted for business line service. If the station equipment where such a substitution is contemplated is owned by the subscriber, it is the subscriber's responsibility to determine the compatibility of the station equipment with the type of supervisory signaling normally used on PBX trunks. If the station equipment is owned by the telephone company, the telephone company shall advise the subscriber whether the equipment is compatible with the type of supervisory signaling normally used on PBX trunks.

J. CUSTOM CALLING SERVICES (Cont'd.)

2. Descriptions (Cont'd.)

a. Call Forwarding

This service feature permits a customer to arrange to have all incoming calls to his telephone automatically transferred to another dialable telephone number during any period in which this feature is activated. Where a charge (local or long distance) is applicable for a call between the customer's telephone and the telephone to which calls are to be forwarded, such charge is applicable to the customer on every call forwarded to and answered at that telephone.

b. Three-Way Calling

This service feature permits a customer to add a third party to an already established connection without the assistance of an operator.

c. Call Waiting

This service provides a tone signal to indicate to a customer who is using his telephone that another party is attempting to call him. It also permits the customer to answer the incoming call while holding his original call.

d. Enhanced Call Waiting

In addition to the standard Call Waiting, Enhanced Call Waiting allows subscribers to cancel the feature prior to initiating a call by dialing a special code. Call Waiting will be automatically reactivated when the call or call attempt is terminated.

A customer requesting Call Waiting will be provided Call Waiting or Enhanced Call Waiting depending on the Central Office capability.

e. Speed Calling

This service permits a customer to call certain other predetermined telephone numbers by dialing an abbreviated code rather than the entire seven or ten digit telephone number. The arrangement available is an eight-number capacity (8-code) and a thirty-number capacity (30-code).

f. Call Forwarding Busy Line (N)

This feature provides for calls terminating to a subscriber's busy directory number to be forwarded to either a different subscriber's telephone number or a different telephone number for the same subscriber located on a different premises from the Call Forwarding Busy Line provisioned premises. The customer selected forward-to telephone number is preprogrammed at the time service is established and can only be changed via service order. Call Forwarding Busy Line shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment of Rotary Line Service.

g. Call Forwarding Don't Answer

This feature provides for calls terminating to a subscriber's idle directory number to be forwarded, after a customer preselected interval, to another telephone number. The customer selected forward-to telephone number and specified interval are preprogrammed at the time service is established and can only be changed via service order.

h. Call Reverting

This service permits a customer to revert (ring-back) a call back to their own premise (origin of call) for the purpose of inter-communication. This service would be initiated via digits dialed/pulsed and/or switch hook control. This service will be provided on only one party service in those offices adequately equipped. Call reverting on multi-party service for calling other parties on line in certain offices will continue to be provided at no charge.

i. Ring Plus Service

(1) General

Ring Plus Service provides the capability to have an additional telephone number assigned to single line residence and business service. A separate, but distinctive ringing pattern is associated with each number.

Customers subscribing to Call Waiting or Enhanced Call Waiting service will be provided with a corresponding but differentiated Call Waiting tone for each number.

Call Forwarding subscribers must choose between Option 1 and Option 2 as outlined in 2f.

Residential and business customers subscribing to Ring Plus will be provided with a separate alphabetical listing for each number, as outlined in 2d.

In the event that a natural disaster occurs in one of the Company's exchanges and destroys or partially destroys customers' premises, the Company may, at its sole discretion, elect to implement a Disaster Assistance Plan. Under the Plan, the Company may, for example, waive the installation fee and up to three months' recurring service charges for Call Forwarding, Call Forwarding Busy Line, Call Forwarding Don't Answer, Preferred Call Forwarding, Ring Plus Service, and/or other features the Company may deem appropriate. This Plan will only be available to residential and business customers whose premises are damaged to the point they are considered unsafe, unsuitable, or uninhabitable. Charges will only be waived with respect to existing local exchange service accounts which are not partially or fully suspended at the time of the offer. Charges will not be waived on service established at a new location.

SECTION 3 - INDIVIDUAL, PARTY AND PRIVATE BRANCH EXCHANGE SERVICE

J1. Enhanced Custom Calling Services

1. General

Enhanced Custom Calling Services is a group of central office call management features offered in addition to basic telephone service.

2. Descriptions

a. Call Return

This feature enables a customer to place a call to the telephone number associated with the most recent call received, whether or not the call was answered or the number is known. The customer can dial a code to request that number from which the last incoming call that was placed is announced. If the customer wishes to return the call, another number is then dialed to request that the network place the call. If the called line is not busy, the call is placed. If the call line is busy, a confirmation announcement is heard, the customer hangs up, and a queuing process begins. For the next thirty minutes, both the calling and the called lines are checked periodically for availability to complete the call. If, during this queuing process, the called line becomes idle, the customer is notified through a distinctive ring that the network is ready to place the call. When the customer picks up the telephone, the call will automatically be placed. Call Return will be deactivated automatically at the end of the thirty-minute period, or when the customer dials a deactivation code. Call Return does not interfere with the normal operation of incoming and outgoing calls during the queuing process.

Callers placing calls to customers subscribing to Call Return may prevent the disclosure of their telephone numbers through the use of Per Call Restrict (see J1.2.E.), or All Call Restrict (see J1.2.F.). These services are offered on Call Return where technically available.

The Call Return customer is responsible for any applicable local or toll usage charges.

This service cannot be activated for all telephone numbers. Telephone numbers with 700, 800 or 900 prefixes cannot be activated.

b. Repeat Dialing

This feature, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up, and a queuing process begins. For the next thirty minutes, both the

calling and called lines are checked periodically for availability to complete the call. If, during the queuing process, the called line becomes idle, the customer is notified through a distinctive ring that the network is ready to place the call. When the customer picks up the telephone, the call will automatically be placed. Repeat Dialing will be deactivated automatically at the end of the thirty-minute period, or when the customer dials a deactivation code. Repeat Dialing does not interfere with the normal operation of incoming and outgoing calls during the queuing process.

The Repeat Dialing customer is responsible for any applicable local or toll usage charges.

c. Call Trace

This feature will, upon successful customer activation, automatically trace the telephone number of the line used for the last call placed to the customer. The intent of this feature is to record the details (e.g., called number, calling number, and time) of nuisance or harassing telephone calls at a Telephone Company location. The customer must dial a Company-designated code, and activation must occur prior to the time that either another call is placed, or the call waiting tone is received by the customer. The customer will receive a recording indicating there will be a charge and information on how to proceed with the trace. A final recording will indicate if the trace was successful. The traced numbers will not be provided to the customer. Call Trace will be available where facilities permit.

d. Call ID

This feature enables the customer to view on a display unit the telephone number of callers. When Call ID is activated on a customer's line, the telephone numbers of incoming calls are displayed on the called customer premise equipment between the first and second ring. Call ID is not available on operator-handled calls. If the incoming call is from a caller served by a PBX or multi-line hunt group, only the main number of the PBX or hunt group is likely to be transmitted and available for display.

SECTION 3 - INDIVIDUAL, PARTY AND PRIVATE BRANCH EXCHANGE SERVICE

J1. Enhanced Custom Calling Services (Cont'd)

2. Descriptions (Cont'd)

d. Call ID (Cont'd)

If the customer's line is busy, and another incoming call attempt is made, the telephone number of that calling party will not be disclosed even if the called number has Call Waiting. The customer has the option of turning off the display device to suspend the display of incoming calling numbers.

Callers placing calls to customers subscribing to Call ID have the ability to prevent their telephone numbers from being disclosed to the called party on a per call basis by utilizing Per Call Restrict (See J1.2.E following). The prevention of the disclosure of their telephone numbers is accomplished by dialing a special code before dialing the telephone number. The special code must be dialed prior to every call made in which the calling party does not want the telephone number disclosed. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number.

Callers placing calls to customers subscribing to Call ID may also prevent the disclosure of their telephone numbers on a per line basis by subscribing to All Call Restrict (See J1.2.F. following). This service will prevent the display of the calling party's number on all calls originating on that line. A privacy indication will appear on the display unit instead of the calling party's telephone number on all calls.

Caller ID should be used for incoming call management purposes only and should not be relied upon for any other purposes such as determining the originating location of a call or determining the definitive identity of a caller. Windstream New York, Inc. shall not be responsible for and makes no representation with respect to the content of information received or transmitted for any purpose other than call management.

Any customer subscribing to Call ID will be responsible for the provision of a display device, which will be located on the customer's premise. The installation, repair and technical capability of that equipment to perform in conjunction with the feature specified will be the responsibility of the customer. The Company assumes no liability or responsibility with respect to the compatibility of customer's equipment, its performance, or its ability to provide the service.

e. Per Call Restrict

Per Call Restrict enables customers to prevent the disclosure of their telephone number on a per call basis to the called party. The transmission of the Directory Number and/or Directory Name to subscribers of Enhanced Custom Calling Services features as described in this Tariff can be temporarily prevented on an as needed basis by dialing a preassigned access code prior to making a call.

This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number.

SECTION 3 - INDIVIDUAL, PARTY AND PRIVATE BRANCH EXCHANGE SERVICE

J1. Enhanced Custom Calling Services (Cont'd)

2. Descriptions (Cont'd)

f. All Call Restrict

This feature enables customers to prevent the transmission of their Directory Number and/or Directory Name on outgoing calls, to subscribers of Enhanced Custom Calling features as described in this Tariff. All Call Restrict prevents the disclosure of the customer's telephone number to the called party. All Call Restrict is applicable on all outgoing calls placed from the customer's line. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number. All Call Restrict may be deactivated by the customer on a per call basis by dialing an access code immediately prior to placing a call.

g. Call Selector

Call Selector provides a distinctive ringing pattern to the subscribing customer for calls received from specific telephone numbers.

The customer creates a screening list of telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern (short, long, short). Calls from telephone numbers not included on the screening list will produce a normal ring.

If the customer subscribes to Call Waiting and a call is received from a telephone number on the Call Selector screening list while the line is in use, the Call Waiting tone will also be distinctive.

When a telephone number on the Call Selector screening list also appears on the Preferred Call Forwarding list, the Preferred Call Forwarding will take precedence. Likewise, when the same number is shown on the Selective Call Rejection list, the call will be blocked.

A customer's line will not produce a distinctive alert if the calling line is not referenced to and originated by the main telephone number or a Telephone Number identified number that represents all the lines in a collection of lines, such as multi-line hunt groups.

h. Preferred Call Forwarding

Preferred Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list.

h. Preferred Call Forwarding (Cont'd)

If the customer also subscribes to Selective Call Rejection and same telephone number is entered on both screening lists, the Selective Call Rejection feature must be deactivated to allow the call to forward.

This feature will not work if the calling line is not referenced to and originated by the main telephone number or a Telephone Number identified number that represents all the lines in a collection of lines such as multi-line hunt groups.

i. Selective Call Rejection

This feature provides the customer the ability to prevent incoming calls from specified telephone numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

If the customer also subscribes to Preferred Call Forwarding and/or Call Selector and the same telephone numbers appear on those screening lists, Selective Call Rejection will take precedence.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number for the hunt group, or is Telephone Number identified.

j. Selective Call Acceptance

This feature provides the customer the ability to screen incoming calls against a list of subscriber-specified directory numbers and then accepts any calls only from those specified directory numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be accepted. When a call is placed to the customer's number from a number not on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number for the hunt group, or is Telephone Number identified.

k. Anonymous Call Rejection

Anonymous Call Rejection allows customers to automatically reject all calls that have been marked anonymous (activated CPN blocking) by the calling party. When Anonymous Call Rejection is active, the called party receives no alerting (ringing) for a call that has been rejected. The call is routed to a denial announcement and subsequently terminated.

l. Caller ID on Call Waiting

This feature enables the customer to view on a display unit, the calling party Directory Number or Directory Name and Number on incoming telephone calls when the subscriber's line is in use. The date and time of the call is also transmitted to the customer. A maximum of 15 characters is allowed for the transmission of the calling party directory name.

When the Caller ID on Call Waiting customer's line is in use, the Directory Number or Directory Name and Number of the line that originated the incoming call and the date and time of the call will be displayed on the called CPE following the waiting call alerting tone. The called party has the following options for disposition of the incoming call:

- Answer the waiting call while placing the original call on hold,
- Alternate between the waiting call and the original call, and
- Ignore the call

Customers subscribing to Caller ID on Call Waiting must also subscribe to Call Waiting, and either Caller ID or Caller ID Deluxe. When subscribing to Caller ID on Call Waiting along with Caller ID, customers will be able to view the calling party Directory Number on incoming calls when the subscriber's line is in use. When subscribing to Caller ID on Call Waiting along with Caller ID Deluxe, customers will be able to view the calling party Directory Name and Number on incoming calls when the subscriber's line is in use.

Any customer subscribing to Caller ID on Call Waiting will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

m. Caller ID – Deluxe

This feature enables the terminating customer to view on a display unit the Directory Name and Number of the Calling Party.

When Caller ID Deluxe is activated on a customer's line, the Directory Name and Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

If the customer's line is busy, and another incoming call attempt is made, the name and telephone number of that calling party will not be disclosed even if the called number has Call Waiting. The customer has the option of turning off the display device to suspend the display of incoming calling numbers.

When Caller ID Deluxe is activated on a customer's line, the Directory Name and Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle. Callers placing calls to customers subscribing to Call ID-Deluxe have the ability to prevent their name and telephone numbers from being disclosed to the called party on a per call basis by utilizing Per Call Restrict (See J1.2.E following). The prevention of the disclosure of their name and telephone numbers is accomplished by dialing a special code before dialing the name and telephone number. The special code must be dialed prior to every call made in which the calling party does not want the name and telephone number disclosed. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number.

Callers placing calls to customers subscribing to Call ID-Deluxe may also prevent the disclosure of their name and telephone numbers on a per line basis by subscribing to All Call Restrict (See J1.2.F. following). This service will prevent the display of the calling party's name and number on all calls originating on that line. A privacy indication will appear on the display unit instead of the calling party's telephone number on all calls.

Caller ID Deluxe should be used for incoming call management purposes only and should not be relied upon for any other purposes such as determining the originating location of a call or determining the definitive identity of a caller. Windstream New York, Inc. shall not be responsible for and makes no representation with respect to the content of information received or transmitted for any purpose other than call management.

Any customer subscribing to Call ID-Deluxe will be responsible for the provision of a display device, which will be located on the customer's premise. SECTION 3 - INDIVIDUAL, PARTY AND PRIVATE BRANCH EXCHANGE SERVICE

J1. Enhanced Custom Calling Services (Cont'd)

3. Regulations

- a. Enhanced Custom Calling Services are provided subject to the availability of facilities, features and central office equipment in locations as determined by the Company. The features described will only operate on calls originating and terminating within Enhanced Custom Calling Services-equipped offices, or similarly-equipped offices of interconnecting Local Exchange Companies. When a service cannot function due to these limitations, notification will be given that the call is outside of the call area.
- b. The services are available only to single-party customers.
- c. The services will not function on an originating basis with COCOTS or party-line service; however, Per Call Restrict will be available to COCOT customers.
- d. The service order charge as indicated in Section 8 of this Tariff will apply to establish these services.
- e. In any type of hunt group arrangement, each line to be equipped with Enhanced Custom Calling Services must be assigned a telephone number. The services must be ordered and billed on each line.
- f. Enhanced Custom Calling Services are generally offered on a subscription basis; however, Per Call Restrict and All Call Restrict will be provided at no monthly charge. Customers subscribing to Non - Published Service as described in Section 7.C. of this tariff must use either Per Call or All Call Restrict in order to prevent the delivery of their number or name and number to the called party. Customers will automatically be assigned Per Call Restrict unless they instead choose All Call Restrict. Blocking options may be changed twice at no charge by present customers the first six months after initiating telephone service. Any further changes from Per Call Restrict to All Call Restrict will be charged the non-recurring rate as listed in the Pricing Addendum located at the end of this tariff.

- g. The provision of Enhanced Custom Calling Services by the Company is subject to the availability of facilities and the requirements of the local network. In no event will the Company be liable for any losses or damages of any kind resulting from the unavailability or failure of its equipment or facilities unless caused by the gross negligence or willful misconduct of the Company. Nor will the Company be liable for losses or damages arising out of any act, omission or failure to perform by the Company, its employees or agents in connection with this service, unless caused by the gross negligence or willful misconduct of the Company, its employees, or agents. The Company will not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on Company facilities and equipment nor on equipment provided by the customer. For additional liability information reference Section 2.
- h. The Enhanced Custom Calling Services customer will be liable for, and will indemnify, protect, defend and save harmless the Company against all suits, actions, claims, demands and judgments, and all costs, expenses and counsel fees incurred on account thereof, arising out of and resulting directly or indirectly from the service or in connection therewith including but not limited to, any loss, damage, expense or liability resulting from any claim of libel or slander. For additional liability information reference Section 2.
- i. Enhanced Custom Calling Services features (such as Call ID) which have the potential for disclosure of the calling party's number (CPN) will only be provided where the Company makes available Per Call Restrict, or All Call Restrict.
- j. At the company's discretion, in exchanges where services become available for the first time, no Service Connection charges will apply for a period of 60 days from the availability date. Otherwise, all applicable Service Connection charges will apply.
- k. Anonymous Call Rejection will not work in conjunction with Call Forwarding, Call Waiting, Call Selector, Selective Call Rejection and Selective Call Accept Services.

Anonymous Call Rejection usage is limited when assigned to hunting lines, or lines that when busy will "roll" an incoming call to another line.

SECTION 3 - INDIVIDUAL, PARTY AND PRIVATE BRANCH EXCHANGE SERVICE

K. Lifeline Telephone Service

1. A. Lifeline Service provides for a Federal credit, pursuant to the FCC's Lifeline Modernization Order (Third Report and Order released on April 27, 2016, WC Docket No. 11-42, FCC 16-38, et. al) and any subsequent clarifying orders, effective December 2, 2016. Funding for Lifeline Service is obtained from a universal service support mechanism to which all telecommunications carriers that provide interstate telecommunications services contribute on an equitable and nondiscriminatory basis. The Lifeline program helps to offset some of the costs for broadband and/or voice services to eligible residential subscribers. Depending upon the type of service, the federal program offers a discount of \$5.25 for voice-only subscribers and \$9.25 for broadband service or a bundled service that includes broadband service. To be eligible for the broadband service discount, the broadband speed subscribed to by the customer must be consistent with federally mandated minimum broadband service standards. (C)

Lifeline Service is limited to only one Service per qualified customer or household; within this section, 'household' is defined as "any individual or group of individuals who are living together at the same address as one economic unit," with an 'economic unit' defined as, "all adult individuals contributing to and sharing in the income and expenses of a household." Lifeline service is not available for resale.

In order to qualify for the Lifeline Service, a customer must provide certification or authorize agency verification of their participation in at least one of the following programs: Supplemental Security Income (SSI), Supplemental Nutrition Assistance Program (SNAP), Medicaid, Federal Public Housing Assistance or Section 8, Veterans Pension or Survivors Pension Benefit.

Additionally, an applicant whose income, as defined in 47 CFR Section 54.400(f), is at or below one hundred and thirty-five percent (135%) of the Federal Poverty Guidelines, may also apply for eligibility certification.

B. New York State Lifeline Discounted Service

These services are restricted to low income residential customers. This service provides a flat rate state discount of \$9.25 for local exchange telephone service. State only qualified customers may choose any type or grade of local telephone service, including bundled services that are normally offered by the Company. This service is only available to customers that do not qualify under the federal lifeline program. To qualify for NYS Lifeline service, a customer must be ineligible to receive the Federal Lifeline Service and be a recipient of benefits from any one of the following Entitlement Programs: National School Lunch; Low Income Home Energy Assistance (LIHEAP); Temporary Assistance for Needy Families (TANF)

K. Lifeline Telephone Service (Continued)

2. The monthly discounted residential rate for qualified low-income customers may not be reduced below zero.
3. All applications for this service are subject to verification pursuant to the FCC's Lifeline Modernization Order (Third Report and Order released on April 27, 2016, WC Docket No. 11-42, FCC 16-38, et. al) and any subsequent clarifying orders, effective December 2, 2016.
4. The subscriber is responsible for notifying the company when eligibility is lost.
5. The Company will reconcile and confirm eligibility periodically, pursuant to the FCC's Lifeline Modernization Order (Third Report and Order released on April 27, 2016, WC Docket No. 11-42, FCC 16-38, et. al) and any subsequent clarifying orders, effective December 2, 2016.

K. Lifeline Telephone Service (Continued)

6. Lifeline customers will be required to renew proof of their eligibility status semi-annually, with the exception of those customers on HEAP, and their renewal will be annual. Failure by a subscriber to comply with the company's periodic requests for proof of continued eligibility will result in loss of Lifeline rate treatment.
7. The Company shall offer Toll Blocking to all qualifying low income customers at no charge at the time such customers subscribe to Lifeline service. If the customer voluntarily elects to receive Toll Blocking, the service shall become part of the customer's Lifeline service and all service deposits will be waived.
8. Lifeline program rate reductions do not apply to long distance service or any other services (i.e., Custom Calling, ALLST*R, construction charges, etc.) which may or may not be tarified. Customers may obtain such services, where available, at their discretion, although the Lifeline program rate reduction does not apply.
9. The Lifeline Service rate reductions do not apply to service connection charges. * D
10. Service order charges apply when service is established for new residential applicants (those without existing local exchange access service) eligible for Lifeline Service. D
11. The deposit standards used for all applicants who apply for service with the Company will also be used for applicants who apply for service under the Lifeline Program with the exception that deposit requirements will be waived for Lifeline Service applicants who voluntarily elect to subscribe to Toll Blocking service.
12. Lifeline service may not be disconnected for non-payment of toll charges. In addition, the Company will not deny re-establishment of local service to customers who are eligible for Lifeline Assistance and have previously been disconnected for non-payment of toll charges.
13. Partial payments that are received from Lifeline customers will first be applied to local service charges and then to any outstanding toll charges.

14. Native American Lifeline

Residential customers who reside on Tribal Land are eligible to receive additional enhanced Federal Lifeline support in order to reduce the cost for Basic Local Telephone service. For New York, Tribal Lands are defined as designated reservations or lands designated as "Near Reservation". In Windstream New York, Inc. serving territory, only the Steamburg exchange qualifies as Tribal Land. A residential customer living in the Steamburg exchange will qualify for an additional enhanced Federal Lifeline credit of up to \$25.00 per month (in addition to the standard lifeline credits) if the customer participates in any state or federal programs listed in Section 3.K of this tariff, or if they participate in any of the following assistance programs:

Bureau of Indian Affairs General Assistance
Tribally Administered Temporary Assistance for Needy Families
Head Start (only those customers meeting its income qualifying standards)
National School Lunch Program (free meals program only)

D

Standard support is available to all qualifying customers living on Tribal Lands, not just Native Americans.

This discount is offered contingent upon the company having the technical ability to do so.

Standard Lifeline rules, regulations and restrictions listed in Section 3.K of this tariff apply.

L. ENHANCED CENTREX

1. General

- a. Enhanced Centrex is a central office communications system package provided in association with individual line exchange business services furnished from digital central office (DMS-100 or DMS-10) equipment located in Company buildings. Enhanced Centrex is not provided in association with party line service.
- b. Enhanced Centrex will be provided in association with lines and trunks terminating on common control equipment, commonly referred to as Key Systems and PBX's, at either the applicable Business Individual rate contained in the Pricing Addendum, or at the applicable Enhanced Centrex rate contained in the Pricing Addendum when the customer elects Feature Package 5. (T)
(T)
- c. Enhanced Centrex is offered as a customer option and may be provided subject to the availability of facilities and central office equipment as determined by the Company. A minimum of 2 access lines in the same Company exchange is required.
- d. Other special features such as trunk queuing, hospital communication, and other offerings would be priced out by Special Assembly.
- e. The minimum period for services provided under this tariff shall be 30 days. Optional 5 year rate stability plans are available.
- f. Enhanced Centrex Service is comprised of two rate elements: the link element which includes the facilities from the demarcation point at the customer's premises to the Company's Central Office main distribution frame, and the port element which includes dial tone, switching, and a network address (telephone number.) Links are provided only with a corresponding port. Ports are provided only with a corresponding link.
- g. All links, ports and feature packages comprising the Enhanced Centrex group are required to be provided from the same Company exchange. Links and ports in a second Company exchange will comprise a second Enhanced Centrex group and requires a second feature package.
- h. Enhanced Custom Calling Services, as described in J 1. of this Section, are optional features offered individually in association with Enhanced Centrex at the rates listed in the Pricing Addendum located at the end of this tariff. (T)

3. Rate Stability Option

- a. The customer may, at their option, elect to enter into a contractual agreement with the Company agreeing that, for a five year period, the Company shall guarantee the monthly rates for Enhanced Centrex Service, and the customer shall guarantee payment of the monthly rates. The rates for Enhanced Centrex Service shall be those rates in effect when the contract is signed. Inside wiring is not part of the agreement. All services not covered by a customer's Plan, including the SLC charge for lines, are subject to standard tariff rates and charges.
- b. The Company shall agree that those charges for Enhanced Centrex Service shall not change for the five year period, irrespective of any tariff changes that may take effect while the contract is in effect. The customer shall agree to continue the monthly payment for Enhanced Centrex Service at the quantities and rates in effect when the contract is signed for the five year period.
- c. All Centrex CO Rate Stability Plan customers must subscribe to a minimum of 5 lines at the principal location, except that if the number of lines at the principal location is less than 5 lines the remainder of the minimum can be composed of the lines in service at any other customer locations in the same Centrex service.

If the number of lines falls below the 90% minimum the customer will be subject to RSP termination penalties.
- e. An existing Rate Stability Plan customer will not be permitted to downgrade his service and retain the Rate Stability Plan at the lower rate. Any downgrade will result in the application of termination charges.
- f. The customer may discontinue any or all of the Centrex Service covered by the contract with a single payment based on the sum of the monthly payments remaining under contract.
- g. An existing Rate Stability Plan customer who moves the principal location within the serving Central Office area or who moves any other location in the same Centrex Service within, into or outside of the serving Central Office area can retain the Rate Stability Plan. All lines involved in a relocation are subject to prevailing installation charges.
- h. With the written permission of the Telephone Company, the obligation to pay the Rate Stability Plan charges for the remainder of the plan period may be assigned to another subscriber for an administrative charge listed in the Pricing Addendum. This transfer charge is payable by the incoming customer. In addition to assuming the responsibility to pay the rates for the remainder of the period, the new subscriber assumes the conditions applicable to the offering at the time of assignment. Any service or equipment rearrangements or additions are subject to the rates and charges applicable. (T)(M)
- i. Any subscriber to a Rate Stability Plan wishing to continue service beyond the end of a Rate Stability Plan period may elect:
 - (1) Prevailing month-to-month tariff rates.
 - (2) If offered, a renewal of a Rate Stability Plan. The Company makes no assurance that such a plan will be offered beyond the specific plan in this tariff, or that such an offering would be at the same rates as set forth in this tariff.
- j. All new lines installed under the Rate Stability Plan are subject to prevailing installation charges. Monthly rates for the additional lines ordered shall be guaranteed by the Company, and the additional payments guaranteed by the customer for the balance of the original contract period.

4. Station Message Detail Recording (SMDR)

a. General

Station Message Detail Recording (SMDR) is a Centrex-CO optional arrangement which provides a record of calls originated by Centrex lines. The SMDR data is stored in the central office, and polled by the customer via voice grade lines, and secured by user password. Message details include the following information:

- (1) The Centrex line number or incoming tie line group which originated the call.
- (2) The called telephone number.
- (3) The date, time and duration of the call.
- (4) The type of facility used for routing the call, i.e., the Wide Area Telephone Service (WATS), Common Control Switching Arrangement (CCSA), normal exchange trunk (for directly dialed toll calls only), Foreign Exchange (FX), tie line or Other Common Carrier (OCC) access line facility.

Where WATS facilities are used for routing the call, the specific WATS band is identified.

Where FX, tie line or OCC access line facilities are used for routing the call, the record details are recorded as the same facility type.

- (5) Charges for toll calls completed over the normal exchange trunks (directly dialed toll calls only).

b. Regulations

- (1) SMDR may be offered to Centrex-CO customers where the Company's message billing process has been arranged to provide this optional feature.

SECTION 3 - INDIVIDUAL, PARTY AND PRIVATE BRANCH EXCHANGE SERVICE

M. REMOTE CALL FORWARDING SERVICE

1. General

Remote Call Forwarding (RCF) is a local exchange service that utilizes a telephone number and central office facilities by which all incoming calls to the RCF telephone number are forwarded automatically to the subscriber's central office line in a different exchange that is outside of the RCF number's local calling scope.

2. Regulations

- a. Remote Call Forwarding service is offered in Central Offices, where facilities permit.
- b. RCF paths may be used singly, in groups, or as overflow paths for foreign exchange trunk groups. Only one forwarding number is permitted per group.
- c. Remote Call Forwarded calls cannot be call forwarded at the terminating end to another number.
- d. Identification of the originating telephone number is not provided to the Remote Call Forwarding customer.
- e. Transmission may not be satisfactory on all calls.
- f. Remote Call Forwarding is not represented as suitable for the transmission of data.
- g. The central office line on which the remote call terminates may not be equipped with call forwarding.
- h. Remote Call Forwarding is provided on condition that the customer subscribe to sufficient RCF paths and terminating facilities to adequately handle calls to the RCF customer without interfering with or impairing any other services offered by the Telephone Company.
- i. The minimum charge for the RCF service is the monthly rate for one month plus the Service Connection Charge.
- j. Charges for the call to the Remote Call Forwarding directory number shall be paid by the calling party.
- k. RCF is offered only when the terminating (forwarded to) number is in an exchange outside of the local calling scope of the RCF directory (forwarding) number's Central Office.
- l. RCF subscribing customers cannot subscribe to any optional flat rate calling plans for the RCF directory (forwarding) number.

(M)

Customers may also choose to add Rotary Hunt Service to the bundle for an additional monthly rate as listed in the Pricing Addendum and/or Voice Mail (a deregulated item) for an additional monthly charge. (T)(M)

This bundled package is for small business customers. Customers may have up to ten business one-party access lines to qualify for this bundle. Access lines after the initial access line will be billed at a per line rate listed in the Pricing Addendum and will be equipped with all features shown above at no additional charge. (T)(M)

To qualify for this service, customers must also subscribe to the Windstream Communications, Inc.'s Small Business Unlimited Long Distance Plan. (The bundled rate includes only the access line and feature portion of the full bundled rate.)

Customers must agree to a Two-Year Term Commitment with this bundle. An early termination fee of 50% of the remaining term balance will apply for customers who terminate before the end of their two-year term commitment.

* If any required component of the service bundle is discontinued, discounts may no longer apply and/or all remaining components may convert to the regular tariffed monthly rate.
