SERVICE CLASSIFICATION NO. 1

Residential

APPLICABLE TO USE OF SERVICE FOR:

Single-phase residential purpose usage in an individual residence; in an individual flat or individual apartment in a multiple-family dwelling; for residential purposes in a rooming house where not more than four (4) rooms are available for rent; and for single phase farm service when supplied through the farm residence meter; use exclusively in connection with religious purposes by corporations or associations organized and conducted in good faith for religious purposes, and including the operation by such corporation or association of a school, notwithstanding that secular subjects are taught at such school; for single-phase service exclusively in connection with a community residence as defined in subdivision 28, 28A or 28B of section 1.03 of the Mental Hygiene Law, provided that such residence is operated by a not-for-profit corporation and if supervisory staff is on site on a twenty-four hour per day basis that the residence provides living accommodations for fourteen or fewer residents; and use for any post or hall owned or leased by a not-for-profit organization that is a veterans organization.

CHARACTER OF SERVICE:

Continuous, Alternating Current at approximately 60 Cycle, 120 Volt, two wire or 120/240 volt, three wire single phase, depending upon the characteristics of the load and the circuits from which service is supplied.

MONTHLY RATE:

	<u>Rate</u>
Customer Charge	\$1.84
Energy Charge, per kWh	\$0.06588

MINIMUM CHARGE:

The customer charge.

TERMS OF PAYMENT:

All bills are due when rendered. Full payment must be received on or before the date shown on the bill to avoid a late payment charge of 1.5% as provided in Rule VIII of the NYMP A generic tariff.

PURCHASED POWER ADJUSTMENT:

The charges set forth in this service classification shall be subject to a purchased power adjustment as explained in Rule IX of the NYMP A generic tariff.

Issued by: Kristin M. Swinton, Chief Executive Officer, 69 Hudson Avenue, Green Island, NY 12183.

SERVICE CLASSIFICATION NO.2

General Service - Demand Metered

APPLICATION TO USE OF SERVICE FOR:

All purposes by commercial, professional, village owned property and industrial power installations at one point of delivery through a demand meter. Customers whose actual monthly energy consumption equals or exceeds 3,500 kWh, or new customers whose energy consumption is estimated by the Green Island Power Authority to exceed 3,500, in a single month shall be assigned to the SC-2 Demand class for a minimum period of one year. If consumption levels continue to meet or exceed the 3,500 kWh threshold, such customer shall remain in the SC-2 class.

Alternatively, existing customers whose metered demand equals or exceeds 5 kW, or new customers whose demand is estimated by the Green Island Power Authority to equal or exceed 5 kW shall remain in or be assigned to the SC-2 class for a minimum period of one year. If such customers' demand continues to equal or exceed 5 kW, such customer shall remain in the SC-2 class.

Customers whose metered energy remains less than 3,500 kWh per month, and whose peak demand remains at less than 5 kW, for a period of one year, shall be reassigned to the SC-2A class.

CHARACTER OF SERVICE:

Continuous, alternating current, 60 Cycles, Single and Three Phase, 120/240 Volt, two or three wire of three phase 240 volt, where demand is metered.

MONTHLY RATE:

	<u>Rate</u>
Demand Charge	\$2.03
Energy Charge, per kWh	\$0.05484

MINIMUM CHARGE:

The minimum charge is the Demand Charge.

DETERMINATION OF DEMAND:

The active demand shall be the maximum 15 minute integrated demand occurring during the month for which charge is made, but not less than one kilowatt.

Issued by: Kristin M. Swinton, Chief Executive Officer, 69 Hudson Avenue, Green Island, NY 12183.

SERVICE CLASSIFICATION NO. 2A
General Service- Non-Demand Metered

APPLICATION TO USE OF SERVICE FOR:

All purposes not otherwise described in this tariff. Customers whose actual metered energy, or new customers whose energy is estimated by the Green Island Power Authority to be less than 3,500 kWh per month shall be assigned to the SC-2A class. All other customers whose energy consumption exceeds 3,500 kWh or whose consumption is estimated to be greater than 3,500 kWh shall be subject to the criteria pertaining to the SC-2 Demand tariff.

CHARACTER OF SERVICE:

Continuous, alternating current, 60 Cycles, Single and Three Phase,
120/240 Volts, two or three wire.

MONTHLY RATE:

	<u>Rate</u>
Customer Charge	\$1.48
Energy Charge, per kWh	\$.06125

SERVICE CLASSIFICATION NO. 3

Private Outdoor Lighting

APPLICABLE TO USE OF SERVICE FOR:

Private outdoor lighting, including traffic signals, where suitable Company overhead facilities exist for regular distribution purposes, except that one pole and one span of overhead secondary will be extended per light when necessary. Monthly charges are assessed at a flat rate per fixture.

CHARACTER OF SERVICE:

Group-metered service, photo-electrically controlled for dusk to dawn illumination for approximately 4200 hours per year, with energy supplied at 60 Hertz and at appropriate voltages designated by the Company. The Company will own, operate and maintain the facilities as required.

MONTHLY RATE:

	Rate
Facilities Charge, per fixture	
All fixtures	\$1.25

MINIMUM CHARGE:

The minimum charge shall be the facilities charge.

TERMS OF PAYMENT:

All bills are due when rendered. Full payment must be received on or before the date shown on the bill to avoid a late payment charge of 1.5% as provided in Rule VIII of the NYMPA generic tariff.

BASE PURCHASED POWER PER KILOWATT-HOUR:

The base purchased power cost per kilowatt-hour pursuant to Rule IX.B of the NYMPA generic tariff is \$.07167.

SERVICE CLASSIFICATION NO. 3 (CON'T)
Private Outdoor Lighting

FACTOR OF ADJUSTMENT:

The factor of adjustment pursuant to Rule IX.D of the NYMPA generic tariff is 1.049334.

PURCHASED POWER ADJUSTMENT:

All kilowatt-hours sold under this service classification shall be subject to Purchased Power Adjustment Charges in accordance with Leaf 13 of the Green island Power Authority Tariff and consistent with Rule IX of the NYMPA generic tariff.

TERM OF SERVICE:

The negotiated term of service shall be as specified in the Service Agreement. After the initial term of service, the Company shall continue to provide and the customer shall continue to take service under the terms of this tariff and the accompanying Service Agreement until either party terminates upon six months written notice.

SPECIAL PROVISIONS:

Eligibility Criteria: A new or existing customer who meets all eligibility requirements stated below shall be eligible to take service in accordance with the rates, charges and provisions set forth under this Service Classification.

1. Customer adds incremental load by (a) constructing a new facility; or (b) expanding an existing facility; or (c) adding facilities or equipment to an existing site; or (d) adding facilities through the redevelopment of a vacant or inactive site, including land or buildings which have been previously developed; or (e) the customer has an option to relocate its facility or equipment and provides evidence to the Company's satisfaction of such an option, subject to a confidentiality agreement, and
2. Customer shall apply for service under this Service Classification prior to the addition of load as described in Requirement (1) above.

SUPERSEDING REVISION:

PURCHASED POWER ADJUSTMENT CHARGE

APPLICABILITY:

All customers receiving service under any of the Green Island Power Authority's Service Classifications are subject to purchased power adjustment charges ("PPAC").

ADJUSTMENT CHARGE:

The PPAC shall be the amount which shall be added to each kilowatt-hour of each rate schedule to reflect and recover all purchased power and transmission costs billed to the Power Authority from all service providers.

CALCULATION OF THE PURCHASED POWER ADJUSTMENT CHARGE:

The PPAC shall equal the total cost of all power and transmission costs billed to the Power Authority in each month divided by the total kWh purchases in that month, less the base cost of purchased power measured at system input level adjusted by a loss factor (Factor of Adjustment). The resultant cost per kWh shall be rounded to the nearest \$0.000001 and applied as a charge or credit to all kilowatt-hours billed in the following month.

ANNUAL RECONCILIATION:

At the end of each fiscal year the Power Authority will perform a reconciliation to determine whether there was an under- or over-collection of purchased power expense during the preceding year. The calculation is as follows:

Total Purchased Power Cost – (kWh sold x Base Cost of Purchased Power x Factor of Adjustment)

The result will then be compared to the actual PPAC revenues recovered during this period to determine if a PPA Reconciliation Surcharge or Refund is applicable. The resultant Surcharge or Refund will be included as a line item in the following month(s) calculation(s) of PPAC in order to adjust revenues to more accurately reflect actual expenses. The total surcharge or refund amount will be collected over the 12 months subsequent to the reconciliation. The amount of under-collection or over-collection surcharged or refunded each month will be in accordance with the percentage of delivered sales to total annual delivered sales for the corresponding month in the reconciled year.
