INTRALATA TOLL SERVICE

A. APPLICATION OF TARIFF

This tariff applies to intrastate/intraLATA message toll telephone service, hereinafter referred to as intraLATA toll, furnished by the Company within the Rochester LATA and originating in the toll rate centers set forth in the preceding concurring carrier section.

B. GENERAL REGULATIONS

1. Definition

IntraLATA message toll telephone service is that of furnishing facilities for telephone communication between telephones in different local calling areas within the Rochester LATA and originating in the toll rate centers of the connecting companies, in accordance with the regulations and schedules of charges specified in this section. The toll service charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this section.

2. The Company IntraLATA Toll rates apply to all toll traffic originating in the toll rate centers set forth above.

3. Liability of the Company

All services listed in this section are covered by General Rules and Regulations as specified in Section 2 of the Catalog.

4. Operator Handled Telephone Communication

Operator Handled Telephone Communications includes the following types of calls: calling card, collect, third number, special toll billing, requests to notify, time and charges and other station-to-station calls using the assistance of the operator.

5. Time of Day

The time when connection is established, as provided in Section D. following, determined in accordance with the time—standard or daylight saving—legally or commonly in use at the point where the calling station is located, determines whether peak or off peak rates apply. This rule applies irrespective of the type of call.

When a message is established in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the message occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.

INTRALATA TOLL SERVICE

C. BASIS FOR ESTABLISHING RATES

1. IntraLATA message toll telephone rates between points (cities, villages or localities) are based on the airline distance between rate centers as established and are listed in Appendix A and rate steps as specified in Appendix B.
2. For the purpose of determining airline mileages, vertical and horizontal grid lines have been established across the State of New York. The spacings between adjacent vertical grid lines and between adjacent horizontal grid lines represent a distance of one coordinate unit. This unit is the square root of 0.1 expressed in statute miles (1670 feet).

A vertical (V) coordinate and a horizontal (H) coordinate have been computed mathematically for each rate center from its latitude and longitude location. A pair of V-H coordinates locates a rate center, for determining airline mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. Appendix A of this Tariff shows the V and H coordinates for each rate center in the Company Service Territory.

3. The distance between any two rate centers is determined as follows:
 - a. Obtain the V and H coordinates of each rate center by referring E. following.
 - b. Obtain the difference between the V coordinates of the two rate centers. Obtain the difference between the H coordinates of the two rate centers. The resulting mileage is determined by applying the following formula for V and H to the V and H coordinates of the two rate centers.

$$[(V_1 - V_2)^2 + (H_1 - H_2)^2]^{.5}$$

INTRALATA TOLL SERVICE

D. DEFINITION OF CLASSES OF SERVICE

1. Classes of Service

Two classes of two-point service are offered, namely, station-to-station service and person-to-person service. The rate application periods for these two classes of service are shown in D.4 following.

a. Station-to-Station Service

Station-station service is that service where the person originating the call:

- 1) Dials the telephone number desired, or
- 2) Gives to the Common Carrier operator the telephone number of the desired telephone station or system.

b. Person-to-Person Service

Person-to-person service is that service where the person originating the call specifies to the Common Carrier operator a particular person to be reached, a particular mobile unit to be reached, or a particular station, department or office to be reached.

When, after the telephone, mobile telephone, or branch exchange system called has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other person or mobile unit to be reached through or to any other station, department or office to be reached, the classification of the call remains person-to-person.

When the person originating the call wishes arrangements made in advance with a particular party, station or mobile unit for the establishment of a connection at a specified time (appointment call) the call is classified as person-to-person.

Section 10
Leaf: 4
Revision: 0
Superseding Revision:

INTRALATA TOLL SERVICE

D. DEFINITION OF CLASSES OF SERVICE (Cont'd)

2. Collection of Charges

Charges for all classes of telephone calls are billed against or collected from the calling telephone billed number in all cases except under the following conditions:

- a. Charges may be billed against or collected from the called telephone (i.e., charges may be reversed) if the charges are accepted at the called station, except as shown in D.2.e. below.
- b. Charges for station-to-station messages will also be billed against the called station in the case where the called customer contracts in advance for special reversed charge toll service.
- c. Charges may be billed to an authorized telephone as determined by the Company, other than the telephone originating the call or the telephone where the call is terminated (i.e., charges may be billed to a third number), except as shown in D.2.e. below.
- d. Charges may be billed to an authorized Calling Card number.
- e. Collect calls to coin telephones or Customer Owned Coin Telephones (COCOTS) and transfers of charges to third telephones which are coin telephones or COCOTS will not be accepted.

3. Initial and Overtime Periods

- a. Message toll rates are quoted in terms of initial and overtime periods.
 - 1) The initial period is the interval of time allowed at the rate quoted for toll connections between given points.
 - 2) The overtime period is the unit of time used for measuring and charging for time in excess of the initial period.

INTRALATA TOLL SERVICE

D. DEFINITION OF CLASSES OF SERVICE (Cont'd)

3. Initial and Overtime Periods (Cont'd)

b. Timing of Messages

- 1) On station-to-station calls, chargeable time begins when the connection is established between the calling telephone and the called telephone station.
- 2) On person-to-person calls, chargeable time begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.
- 3) Chargeable time ends when the calling station "hangs-up", thereby releasing the network connection. If the called station "hangs-up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Carrier Customer.
- 4) Chargeable time does not include time lost because of faults or defects in the service.
- 5) When exchange service is connected to a communications system through a service terminating arrangement or connecting arrangement, under the provisions of this tariff, chargeable time begins when a call from the telecommunications network terminates in or passes through the first multilane terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the exchange telephone service so that chargeable time may begin.

4. Basic Message Toll Schedule

Rate Discounts and Application Periods

a. Application Periods

Rate discounts and application periods shown below apply for all toll messages including coin sent-paid, operator assisted, and person-to-person.

<u>Rate Period</u>	<u>From</u>	<u>Times Applicable to But Not Including</u>	<u>Days Applicable</u>
Day	8:00 AM	4:59 PM	Monday-Friday
Evening	5:00 PM	10:59 AM	Monday-Thursday
Night	11:00 PM	7:59 AM	Monday-Thursday
Weekend	5:00 PM	7:59 AM	Friday-Monday

Holiday Rate Periods

On Christmas Day (December 25), on New Year's Day (January 1), on Independence Day (July 4), on Labor Day (The first Monday in September) and on Thanksgiving (The last Thursday in November) and on resulting legal holidays when Christmas, New Year's Day or Independence Day legal holidays fall on dates other than December 25, January 1 or July 4, the holiday rate applicable is the Evening Rate unless a lower rate would normally apply.

b. Plan A

Plan A provides rates for calls outside the local calling area but within the LATA (IntraLATA Toll). All calls are rounded to the next higher full minute. A customer may select Volume Discount Option I or Option II. Option I provides for a discount percentage applied to usage based on the usage tier within which customer falls. Option II provides for a flat discount percentage applied to total dollar usage. For purposes of this pricing plan, a "Member" is defined as any customer who has purchased both their local service and interLATA long distance service through Frontier Communications of Rochester.

1) Volume Discounts

Option I

<u>Usage Tier</u>	<u>Discounts Member</u>	<u>Discounts Non-Member</u>
\$0.00 - \$5.00	25%	0%
\$5.01 - \$10.00	30%	10%
\$10.01 - \$20.00	35%	20%
\$20.01 - up	40%	30%

	<u>Discounts Member</u>	<u>Discounts Non-Member</u>
<u>Option II</u>	30%	10%

2) Minimum Usage Charge

Plan A is available on the basis of a monthly minimum usage charge. Customers will be charged either their totaled per minute usage charges for the billing period or the minimum usage charge for the option selected, whichever is greater.

<u>Option</u>	<u>Minimum Usage Charge</u>	<u>Discounts Member</u>	<u>Discounts Non-Member</u>
I	\$100.00	0%	0%
II	\$50.00	0%	0%
III	\$500.00	0%	0%

b. Plan A (Cont'd)

3) Per Minute Usage Charges (Cont'd)

The Per Minute Usage Charges as specified below apply to all Plan A calls which originate and terminate within New York State.

Day Rate Period

<u>Mileage</u>	<u>Initial Minute</u>	<u>Additional Minute</u>
0 - 8	\$0.12	\$0.06
9 - 13	0.17	0.11
14 - up	0.24	0.17

Evening / Holiday Rate Period

<u>Mileage</u>	<u>Initial Minute</u>	<u>Additional Minute</u>
0 - 8	\$0.06	\$0.03
9 - 13	0.08	0.05
14 - up	0.12	0.08

Night / Weekend Rate Period

<u>Mileage</u>	<u>Initial Minute</u>	<u>Additional Minute</u>
0 - 8	\$0.06	\$0.03
9 - 13	0.08	0.05
14 - up	0.12	0.08

4) Frequent Caller Discount

Plan A customers will receive a retroactive discount on all Usage Charges incurred on calls to their most frequently called IntraLATA toll exchange in each billing period where their total usage exceeds a minimum monthly usage amount.

	<u>Minimum Monthly Usage for Frequent Caller</u>	<u>Discount</u>
Member	\$50.00	0%
Non-Member	\$50.00	0%

c. Plan B

Plan B is a specialized service available to customers who use the Carrier's service for IntraLATA dial-up toll service. For purposes of this pricing plan, a "Member" is defined as any customer who has purchased both their local service and interLATA long distance service through Frontier Communications of Rochester.

Customers to Plan B receive volume discounts based on IntraLATA usage.

1) Per Minute Dial-Up Usage Charges

All calls are rounded to the next higher additional billing increment and subject to a minimum billing increment charge.

	<u>Seconds</u>
Initial increment	30
Additional increment	6
	<u>Per Minute</u>
Day Rate Period	\$.125
Evening Rate Period	\$.125
Night/Weekend Rate Period	\$.125

2) Volume Discounts

As set forth below, volume discounts will automatically be applied to the customer's total monthly Usage Charges. Once the total Monthly Usage Level is determined, all usage up to and including that level is discounted at the specified percentage for that level.

<u>Monthly Usage</u>	<u>Member</u>	<u>Non-Member</u>
\$50.00	0%	0%
\$100.00	0%	0%
