GENERAL INFORMATION

A. CONCURRENCE:

The Village of Sherburne concurs in and agrees to abide by the rules and regulations as set forth in the generic tariff filed by the New York Municipal Power Agency (NYMPA) in Case No. 97-E-1575.

B. TERRITORY TO WHICH SCHEDULE APPLIES:

These rules, rates and regulations are applicable to the Village of Sherburne and portions of the Town(s) of Sherburne, Columbia, and North Norwich served under franchises granted to the Village of Sherburne.

SERVICE CLASSIFICATION NO. 1
Residential

APPLICABLE TO USE OF SERVICE FOR:

Single-phase residential purpose usage in an individual residence; in an individual flat or individual apartment in a multiple-family dwelling; for residential purposes in a rooming house where not more than four (4) rooms are available for rent; and for single phase farm service when supplied through the farm residence meter; use exclusively in connection with religious purposes by corporations or associations organized and conducted in good faith for religious purposes, and including the operation by such corporation or association of a school, notwithstanding that secular subjects are taught at such school; for single-phase service exclusively in connection with a community residence as defined in subdivision 28, 28A or 28B of section 1.03 of the Mental Hygiene Law, provided that such residence is operated by a not-for-profit corporation and if supervisory staff is on site on a twenty-four hour per day basis that the residence provides living accommodations for fourteen or fewer residents; and use for any post or hall owned or leased by a not-for-profit organization that is a veterans organization.

CHARACTER OF SERVICE:

Continuous - 60 hertz alternating current at 120 or 120/240 volts, single phase, voltage at the option of the Village of Sherburne.

MONTHLY RATE:

	<u>Rate</u>
Customer Charge	\$2.49
Energy Charge, per kWh	
Non-Winter (May through October)	\$0.0332
Winter (November through April)	
First 1,000 kWh	\$0.0332
All kWh over 1,000 kWh	\$0.0480

MINIMUM CHARGE:

The minimum charge is the customer charge.

SERVICE CLASSIFICATION NO. 1 (CONT'D)
Residential

TERMS OF PAYMENT:

All bills are due when rendered. Full payment must be received on or before the date shown on the bill to avoid a late payment charge of 1.5% as provided in Rule VIII of the NYMPA generic tariff.

TERM:

One year and thereafter until terminated on 48 hours written notice to the Village.

SPECIAL PROVISIONS:

- A. Motors whose individual capacity exceed 5 H.P. will not be served under this service classification. Motors whose individual capacity exceeds 1/2 H.P. shall be supplied at 240 volts.
- B. If a portion of a residence is used for business or professional purposes, this classification will apply for the entire service only if the primary residential use, character and appearance of the premises is not changed, and further provided that the connected load of the portion used for business or professional purposes does not exceed 1500 watts. Otherwise the commercial rate will apply for the entire service unless the wiring is so arranged that each portion may be separately metered and billed at the appropriate rate.

PURCHASED POWER ADJUSTMENT:

Charges set forth in this Service Classification shall be subject to a purchased power adjustment as explained in Rule IX of the NYMPA generic tariff.

BASE PURCHASED POWER PER KILOWATT-HOUR:

The base purchase power cost per kilowatt-hour pursuant to Rule IX.B of the NYMPA generic tariff is \$0.016092.

FACTOR OF ADJUSTMENT:

The factor of adjustment pursuant to Rule IX.D of the NYMPA generic tariff is 1.055932.

SERVICE CLASSIFICATION NO. 2
General Service - Non-demand Metered

APPLICABLE TO USE OF SERVICE FOR:

Commercial, business, schools, small industrial power and light installations, (not served under Service Classification No. 3) and service for premises partially used for business or professional and partially used for residential purposes, where applicable. Consumption of 6,000 kWh in any winter month (November through April) will be moved to Service Classification No. 3.

CHARACTER OF SERVICE:

Continuous - 60 hertz alternating current; 120 or 120/240 volts, single phase, or 240 volts, three phase, or 120/208 three phase; voltage and phase at the option of the Village of Sherburne.

MONTHLY RATE:

SERVICE CLASSIFICATION NO. 3
General Service - Demand Metered

APPLICATION TO USE OF SERVICE FOR:

Large light and power installations either agreeing in advance to minimum billing demand of 10 kilowatts, or the maximum monthly demands of which are established by measurement as provided below. Customers will remain on this service classification until usage drops below 6,000 kWh and demand drops below 10 kW in every winter month (November through April).

CHARACTER OF SERVICE:

Continuous - 60 hertz alternating current; 120/240 volts, single phase, or 240 volts, three phase; or 120/208 three phase; voltage and phase at the option of the Village of Sherburne.

MONTHLY RATE:

	<u>Rate</u>
Energy Charge, per kWh	\$0.0109
Demand Charge, per kW	\$5.05

MINIMUM CHARGE:

- The minimum charge shall be the greater of the following:
- A. The demand charge as explained in DETERMINATION OF DEMAND; or
 - B. The product of the base cost of fuel, the factor of adjustment and kWh usage.

PSC NO: 1 ELECTRICITY

SERVICE CLASSIFICATION NO. 3 (CONT'D)
General Service - Demand Metered

DETERMINATION OF DEMAND:

The demand will be determined by measurement and where the demand as determined is 10 KW or greater, a demand meter will be installed and the charge shall be the greatest of the following:

- A. The maximum fifteen minute integrated demand occurring during the monthly period;
- B. 75% of the highest demand in the preceding eleven months; or
- C. Ten kilowatts.

TERMS OF PAYMENT:

All bills are due when rendered. Full payment must be received on or before the date shown on the bill to avoid a late payment charge of 1.5% as provided in Rule VIII of the NYMPA generic tariff.

TERM:

One year and thereafter until terminated on 48 hours written notice to the Village.

SERVICE CLASSIFICATION NO. 3 (CONT'D)
General Service - Demand Metered

SPECIAL PROVISIONS:

- A. The individual capacity of motors to be supplied at 120 volts shall not exceed 1/2 H.P. The individual capacity of single phase motors shall not exceed 5 H.P. except, where three phase service is not available.
- B. A customer taking 3 phase service at 240 volts who also requires 110/240 volt single phase service may obtain it either:
 - 1. By providing at his own expense and on his side of the meter the necessary equipment to obtain such service from the three phase circuits; or
 - 2. By making separate application for such service, in which case it will be separately metered and billed.
- C. Service may be measured by demand and watt hour meters on the primary side of the Village's transformers, in which case the recorded demand and energy consumption will be reduced 2% for billing purposes.

PURCHASED POWER ADJUSTMENT:

The charges set forth in this Service Classification shall be subject to a purchased power adjustment clause as explained in Rule IX of the generic tariff.

BASE PURCHASED POWER PER KILOWATT-HOUR:

The base purchase power cost per kilowatt-hour pursuant to Rule IX.B of the NYMPA generic tariff is \$0.016092.

SERVICE CLASSIFICATION NO. 5 (CONT'D)
Private Outdoor Lighting

SPECIAL PROVISIONS:

- A. The Village of Sherburne shall furnish, install, own, operate and maintain a photo-electrically controlled Luminaire complete with not less than a 30 inch bracket, ballast and a multiple lamp at the wattage designated under the rate charge desired. The Board shall also provide a cable service span of 100 feet, which will be connected on the line side of the customer's meter. Where the service span exceeds 100 feet, the customer shall pay for the additional cable used.
- B. The lighting unit will be installed only on private property owned or leased by the customer. The customer shall furnish the necessary pole (minimum 30 ft. class 5 pressure treated) or other support, except as hereinafter provided. The Village of Sherburne reserves the right to require a mounting height which will provide proper light distribution from the unit. Where a pole is appropriately located on the premises, the Village of Sherburne may waive the requirement that the support be furnished by the customer, and install the unit on its own pole.
- C. Upon request of the customer, the Village of Sherburne will change the location of the lighting unit, providing a proper support is furnished and customer agrees to pay the Village of Sherburne for cost incurred in making such change.
- D. Lighting service will be provided every night and all night during the hours between 30 minutes after sunset and 30 minutes before sunrise, aggregating about 4,200 hours per year, unless prevented by accidents or other causes beyond the control of the Village of Sherburne.
- E. The customer shall notify the Village of Sherburne whenever the lamp shall become extinguished or out of service for any reason and the Village of Sherburne shall replace the lamp and/or make the necessary repairs with reasonable promptness.
- F. The contract is subject to cancellation in the event that maintenance or lamp replacement becomes excessive due to vandalism and other causes.

BASE PURCHASED POWER PER KILOWATT-HOUR:

The base purchase power cost per kilowatt-hour pursuant to Rule IX.B of the NYMPA generic tariff is \$0.016092.

FACTOR OF ADJUSTMENT:

The factor of adjustment pursuant to Rule IX.D of the NYMPA generic tariff is 1.055932.

CHARGES

A. RECONNECTION CHARGE:

When service has been discontinued, either by the Municipality as provided in the NYMPA generic tariff or at the request of the consumer and the same consumer applies for reconnection of service at the same premises within four (4) months, there shall be a reconnection charge payable before service will be reestablished, in the amounts as follows:

\$25.00 during the regular working hours of the Electric Department, Monday through Friday;

\$75.00 after the regular working hours of the Electric Department, Monday through Friday, and Saturday, Sunday and Holidays.

B. INSUFFICIENT FUNDS CHECK CHARGE:

Any checks received in payment for electric service which are returned to the Municipality for insufficient funds, or are otherwise dishonored by the bank, shall bear a nonrecurring charge of \$10.00 for each check that has to be processed by the Municipality. If two checks have been returned by the bank, the customer who issued the dishonored checks may be required by the Municipality to render future payments by cash, money order, certified or cashier's check.

Post-dated checks shall be returned to the customer as invalid for the transaction.

Only United States currency shall be accepted for payment of accounts due the Municipality.

PSC NO: 1 ELECTRICITY
COMPANY: VILLAGE OF SHERBURNE

PURCHASED POWER ADJUSTMENT CHARGE

APPLICABILITY:

All customers receiving service under any of the Village of Sherburne's Electric Department's Service Classification are subject to purchased power adjustment charges ("PPAC").

ADJUSTMENT CHARGE:

The PPAC shall be the amount which shall be added to each kilowatt-hour of each rate schedule to reflect and recover all purchased power and transmission costs billed to the Village of Sherburne Electric Department from all service providers.

CALCULATION OF THE PURCHASED POWER ADJUSTMENT CHARGE:

The PPAC shall equal the total cost of all power and transmission costs billed to the Village of Sherburne Electric Department in each month divided by the kWh purchases in that month, less the base cost of purchased power measured at system input level adjusted by a loss factor (Factor of Adjustment). The resultant cost per kWh shall be rounded to the nearest \$0.000001 and applied as a charge or credit to all kilowatt-hours billed in the following month.

The Base Cost of power is \$0.016092 per kWh.

The Factor of Adjustment is 1.055932.

ANNUAL RECONCILIATION:

At the end of each fiscal year, the Village of Sherburne will perform a reconciliation to determine whether there was an under- or over-collection of purchased power expense during the preceding year. The calculation is as follows:

Total Purchased Power Cost - (kWh sold x Base Cost of Purchased Power x Factor of Adjustment)

The result will then be compared to the actual PPAC revenues recovered during this period to determine if a PPA Reconciliation Surcharge or Refund is applicable. The resultant Surcharge or Refund will be included as a line item in the following month(s) calculation(s) of PPAC in order to adjust revenues to more accurately reflect actual expenses. The number of months over which the Surcharge or Refund will be included will depend on the size of the Surcharge or Refund. If the Surcharge/Refund is under \$10,000 it will be included in one month. Surcharges/Refunds between \$10,000 and \$20,000 will be split between two months and any Surcharges/Refunds over \$20,000 will be charged/credited in \$10,000/month increments until complete in order to minimize the impact on rate payers.

SUPERSEDING REVISION:

PURCHASE OF RENEWABLE ENERGY FROM NEW DISTRIBUTED GENERATORS

ELIGIBILITY:

Residential or non-residential customers who receive service under Service Classification No. 1, 2, 3, or 4 and own or operate Solar, Wind and/or Energy Storage Electric Generating Equipment with a rated capacity of no more than fifteen kilowatts (15 kW - cumulative maximum export) located and used at their premise. Qualifying Customers must install and operate the Solar or Wind Generating system in compliance with *New York State Standardized Interconnection Requirements and Application Process for New Distributed Generators Connected in Parallel with Utility Distribution Systems* which is attached to these tariffs as *Addendum-SIR*, and may be from time to time changed, amended and/or supplemented. This program will be available to qualifying customers on a first come, first served basis, until the total rated generating capacity for Solar, Wind, and/or Energy Storage Electric Generating Equipment owned or operated by the Customer in the Village of Sherburne's service territory is equivalent to 150 kW (one-percent of the Village of Sherburne's average system load).

INTERCONNECTION COSTS:

Customers receiving service under this service classification will be responsible for 100% of necessary interconnection costs. An estimate shall be provided to applicants and (i) shall include the costs associated with any required modifications to the utility system, administration, metering, and onsite verification testing, as required under *Standard Interconnection Requirements* of this tariff and (ii) shall include the cost of installing any dedicated transformer(s) and other safety equipment, necessary to protect the safety and adequacy of electric service to other customers as required under *New York State Standardized Interconnection Requirements and Application Process for New Distributed Generators Connected in Parallel with Utility Distribution Systems* of this tariff – *Addendum - SIR*.

METERING

The Village of Sherburne will provide one revenue meter for the purpose of billing. This meter will have bidirectional energy flow capability and will record both energy delivered and received by the Village of Sherburne. The charge for this meter will be included in the applicable monthly service charge.

CUSTOMER CHARGES

The Customer will pay the rates and charges of the Customer's applicable Service Classification for energy delivered to the Customer by the Village of Sherburne.

PSC NO: 1 ELECTRICITY
COMPANY: VILLAGE OF SHERBURNE
INITIAL EFFECTIVE DATE: 12/1/2019
Issued in Compliance with Order in Case 19-E-0421, dated November 14, 2019

LEAF: 21
REVISION: 1
SUPERSEDING REVISION: 0

CUSTOMER CREDIT

The Customer will be credited monthly for energy (kWh) that is received by the Village of Sherburne from the Customer. This credit will be applied to the Customer's bill monthly. If a customer produces more energy than the customer consumes during an individual monthly billing cycle, a kWh credit will be carried forward until consumed or the end of February. If a customer produces more energy than consumed during the twelve-month period ending with the February meter reading, the Village will issue a credit to the customer's utility bill issued in March. The credit will be calculated by multiplying the kWh credit balance by the average of the Purchased Power Cost from the otherwise applicable Purchased Power Statements, as filed during the past twelve months. Upon payment of the credit, the kWh credit balance will be reset to zero.

REQUIREMENTS FOR INTERCONNECTION

The generating equipment must be designed, installed, interconnected, tested and operated in accordance with the applicable government, industry and the Village of Sherburne's requirements and must comply with the *New York State Standardized Interconnection Requirements and Application Process for New Distributed Generators Connected in Parallel with Utility Distribution Systems* which is attached to these tariffs as *Addendum - SIR*. The system design output shall not exceed 110% of the prior 12 months of metered energy consumption.
