**9. Originating 800 Service
9.1 Description**

Rates and charges for services described herein are contained in Section 35.9.

9.1.1 General	
A.	Originating 800 service is available with MPA or MPB arrangements, at suitably equipped SSP locations as listed in the LERG and described in TR-TSV-000905. Originating 800 service allows a CLEC's 800 customer to receive calls from the Telephone Company's end users in the same LATA when the Telephone Company is able to translate its end user's dialed 800 number into a seven or ten digit POTS number (NPA-NXX-XXXX format) associated with that CLEC's served NXXs in the same LATA.
B.	The Telephone Company will provide the CLEC with an SSP record for each completed 800 call in the standard industry format.
