Section 5 - SUPPLEMENTAL SERVICES

5.1 CUSTOM CALLING SERVICE

5.1.1 General

Custom Calling Service is an optional service arrangement of central office services furnished to individual line customers. It is available within the exchange area of all exchanges served by a central office where facilities and operating conditions permit.

5.1.2 Description of Features

A. Call Forwarding

Call Forwarding permits the Customer to automatically forward (transfer) all incoming calls to another telephone number, and to restore it to normal operation at their discretion.

B. Call Return

Call Return allows the Customer to return a call to the last incoming call whether answered or not. Upon activation, it will redial the number automatically and continue to check the number every 45 seconds for up to 30 minutes if the number is busy. The Customer is alerted with a distinctive ringing pattern when the busy number is free. When the Customer answers the ring, the call is then completed. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

C. Call Screen

Call Screen allows the Customer to automatically block incoming calls from up to ten customer pre-selected telephone numbers (including numbers from which a customer has just received a call). The list of numbers can be changed at any time. Callers whose numbers have been blocked will hear a recorded message and no usage charges will apply. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

Effective: September 30, 2010

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.1 CUSTOM CALLING SERVICE (Cont'd)

5.1.2 Description of Features (Cont'd)

D. Call Trace

Call Trace allows the Customer to dial a code to automatically request that the Utility record a caller's originating telephone number and the date and time of the call as well as the date and time of the Customer initiated trace. The information is stored by the Utility and disclosed only to a law enforcement agency for investigation purposes. The customer does not receive any information regarding the origination of the calls.

E. Call Waiting

Call Waiting permits the customer engaged in a call to receive a tone signal indicating a second call is waiting; and, by operation of the switchhook, to place the first call on hold and answer the waiting call. The Customer may alternate between the two calls by operation of the switchhook, but a three-way conference cannot be established.

Cancel Call Waiting (CCW) allows a customer to dial an activation code prior to making a call, and cancel the Call Waiting (CW) feature. CCW must be activated each time the customer wants CW canceled. Exception: Customers subscribing to a Custom Calling Service that provides "flash privileges" such as Three-Way Calling, can activate the CCW feature while an incoming or outgoing call is in progress.

F. Priority Ringing

Priority Ringing differentiates incoming calls from up to ten Customer pre-selected telephone numbers by signaling the customer with a distinctive ringing pattern. If the Customer subscribes to Call Waiting, a distinctive tone is heard for the selected set of numbers. The last incoming call can automatically be added to the list of pre-selected numbers.

G. Remote Call Forwarding

Remote Call Forwarding Service is an arrangement which includes the furnishing of a network address (seven or area code + seven digit telephone number) to an applicant or Customer, which permits call completion to another network address. The Remote Call Forwarding network address must be located in an exchange area.

Section 5

Original Page 4

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.1 CUSTOM CALLING SERVICE (Cont'd)

5.1.2 Description of Features (Cont'd)

H. Repeat Dialing

Repeat Dialing permits the Customer to have calls automatically redialed when the first attempt reaches a busy number. The line is checked every 45 seconds for up to 30 minutes and alerts the customer with a distinctive ringing pattern when the busy number and the customer's line are free. The Customer can continue to make and receive calls while the feature is activated.

I. Speed Calling

Speed Calling permits the customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. The feature is available as an eight-code list or thirty-code list. Either code list may include local and/or toll telephone numbers. To establish or change a telephone number in a code list, the Customer dials an activating code, receives a second dial tone and dials either a one or two digit code (for the eight code and thirty code lists, respectively) plus the telephone number.

J. Three-Way Calling

Three-Way Calling permits the Customer to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The Customer initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming calls.

5.1.3 Monthly Rates and Charges

A. Rates

Minimum and maximum rates are found in Section 6.2 of this tariff.

5.1.4 Nonrecurring Rates

A. Connection Charges

Connection charges may apply when a customer requests connection to one or more custom calling features. Orders requested for the same customer account made at the same time for the same premises will be considered one request. These charges may not apply if the features are ordered at the same time as other work for the same customer account at the same premises.

Minimum: \$ 0.00

Maximum: \$20.00

5.1.5 Trial Periods

The Company may elect to offer a free or reduced rate trial of any new custom calling feature(s) to prospective customers within 90 days of the establishment of the new feature. See 5.4, Service and Promotional Trials.

SECTION 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.2 CLASS SERVICES

5.2.1 General

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all CLASS services. Transmission levels may not be sufficient in all cases.

5.2.2 Description of Features

a. Caller ID

The Caller ID feature allows a customer to see a caller's name and number previewed on a display screen before the call is answered allowing a customer to prioritize and or screen incoming calls. Caller ID records the name, number, date and time of each incoming call - including calls that aren't answered by the customer. Caller ID service requires the use of specialized CPE not provided by the company. It is the responsibility of the customer to provide the necessary CPE.

b. Automatic Redial

The Automatic Redial feature allows a customer to automatically redial the last number dialed. This is accomplished by the customer activating a code. The network periodically tests the busy/free status of the called line for up to 30 minutes until both lines are found free and then redials the call for the customer.

The Automatic Redial feature also allows customers, having reached a busy number, to dial a code before hanging up. Automatic Redial feature then continues to try the busy number for up to 30 minutes until it becomes free. Once the busy line is free the call is automatically redialed and the customer is notified of the connected call via a distinctive ring.

Original Page 7

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.2 CLASS SERVICES (Cont'd)

5.2.2 Description of Features (Cont'd)

b. Automatic Redial (Cont'd)

The following types of calls cannot be Automatically Redialed:

- Calls to 800 Service numbers
- Calls to 900 Service numbers
- Calls preceded by an interexchange carrier access code
- International Direct Distance Dialed calls
- Calls to Directory Assistance
- Calls to 911

c. Automatic Recall

The Automatic Recall stores the number of the most recent incoming call (including unanswered incoming calls) to a customer's number. This allows a customer to dial back any missed or unanswered telephone calls.

d. Customer Originated Trace

Customer Originated Trace allows customers to key in a code that alerts the network to trace the last call received. The traced telephone number is automatically sent to the company for storage for a limited amount of time and is retrievable by legally constituted authorities upon proper request by them. By contacting the company the customer can use this application to combat nuisance calls.

5.3 SERVICE AND PROMOTIONAL TRIALS

5.3.1 General

The Company may establish temporary promotional programs wherein it may waive or reduce nonrecurring or recurring charges, to introduce a present or potential customer to a service not previously subscribed to by the customer.

5.3.2 Regulations

- a. Appropriate notification of the Trial will be made to all eligible customers and to the Commission. Appropriate notification may include direct mail, bill inserts, broadcast or print media, direct contact or other comparable means of notification.
- b. During a Service Trial, the service(s) is provided automatically to all eligible customers, except those customers who choose not to participate. Customers will be offered the opportunity to decline the trial service both in advance and during the trial. A customer can request that the designated service be removed at any time during the trial and not be billed a recurring charge for the period that the feature was in place. At the end of the trial, customers that do not contact the Company to indicate they wish to retain the service will be disconnected from the service at no charge.
- c. During a Promotional Trial, the service is provided to all eligible customers who ask to participate. Customers will be notified in advance of the opportunity to receive the service in the trial for free. A customer can request that the service be removed at any time during the trial and not be billed a recurring charge for the period that the service was in place. At the end of the trial, customers that do not contact the Company will be disconnected from the service.
- d. Customers can subscribe to any service listed as part of a Promotional Trial and not be billed the normal Connection Charge. The offering of this trial period option is limited in that a service may be tried only once per customer, per premises.
- e. The Company retains the right to limit the size and scope of a Promotional Trial.

5.4 DIRECTORY ASSISTANCE SERVICE

5.4.1 General

A customer may obtain assistance, for a charge, in determining a telephone number by dialing Directory Assistance Service. A customer can also receive assistance by writing the Company with a list of names and addresses for which telephone numbers are desired.

5.4.2 Regulations

A Directory Assistance Charge applies for each telephone number, area code, and/or general information requested from the Directory Assistance operator except as follows:

- a. Calls from coin telephones, including COCOTS.
- b. Requests for telephone numbers of non-published service.
- c. Requests in which the Directory Assistance operator provides an incorrect number. The customer must inform the Company of the error in order to receive credit.
- d. Requests from individuals with certified visual or physical handicaps in which the handicap prevents the use of a local directory. Individuals must be certified in accordance with the terms outlined under "Handicapped Person" in Section 10 of this Tariff, up to a maximum of 50 requests per month.

5.4.3 Rates

Unless one of the exceptions listed above applies, the charges as shown below apply for each request made to the Directory Assistance operator:

Minimum:	\$0.01
Maximum:	\$3.00

Issued: June 30, 2010
Issued By: Heidi Dohse, Chief Information Officer
8275 S Eastern Avenue, #200

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.5 DIRECTORY LISTING SERVICE

5.5.1 General

A single main listing is provided free of charge for each customer of record. No charge applies to nonpublished service when initial service is established. If customer changes from nonpublished to published, a nominal fee will apply plus the service order charge.

Per additional directory listings

	<u>Minimum</u>	<u>Maximum</u>
Monthly Recurring Charge	\$ 1.00	\$3.00
Nonpublished Listings	\$ 0.50	\$3.00

5.5.2 Additional Directory Charge

These directories will not be provided by XYN Communications of New York, LLC. The local telephone company may impose a charge and/or fees for the delivery of these directories.

5.6 LOCAL OPERATOR SERVICE

5.6.1 General

Local calls may be completed or billed with the live or mechanical assistance by the Company's operator center. Calls may be billed collect to the called party, to an authorized 3rd party number, to the originating line, or to a valid authorized calling card. Local calls may be placed on a station to station basis or to a specified party (see Person to Person), or designated alternate. Usage charges for local operator assisted calls are those usage charges that would normally apply to the calling party's service. Where no local charge applies (flat rate service), the usage charge is \$0.00. In addition to usage charges, an operator assistance charge applies to each call:

	<u>Minimum</u>	<u>Maximum</u>
Local Operator Assistance, per call:	\$0.00	\$2.75

Issued: June 30, 2010
Issued By: Heidi Dohse, Chief Information Officer

Effective: September 30, 2010

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.7 BLOCKING SERVICE

5.7.1 General

Blocking service is a feature that permits customers to restrict access from their telephone line to various discretionary services. The following blocking options are available:

- a. 900, 976 information services and 900 range numbers, and 700 Blocking - allows the subscriber to block all calls beginning with the 900 and 700 prefixes (i.e. 900-XXX-XXXX) from being placed.
- b. Third Number Billed and Collect Call Restriction - provides the subscriber with a method of denying all third number billed and collect calls to a specific telephone number provided the transmitting operator checks their validation data base.
- c. Toll Restriction (1+ and 0+ Blocking) - provides the subscriber with local dialing capabilities but blocks any customer-dialed call that has a long distance charge associated with it.

Toll Restriction will not block the following types of calls: 911 (Emergency), 1 + 800 (Toll Free), and operator assisted toll calls.
- d. Toll Restriction Plus - provides subscribers with Toll Restriction, as described in 1.d. of this Section, and blocking of 411 calls.
- f. Direct Inward Dialing Blocking (Third Party and Collect Call) - provides business customers who subscribe to DID service to have Third Party and Collect Call Blocking on the number ranges provided by the Company.

5.7.2 Regulations

- .1 The Company will not be liable for any charge incurred when any long distance carrier or alternative operator service provider accepts third number billed or collect calls.
- .2 Blocking Service is available where equipment and facilities permit.
