#### 5.4 Transit Traffic Service

Transit Traffic Service is an access service in which the Company transits traffic originated by a third party who is not an End User or other user of the Company's local exchange or exchange access service through its wire centers to a Customer. Transit Traffic Service is comprised of various facilities, connections, features and functions. It provides for the use of common terminating, common switching and switched transport facilities of the Company but does not include local switching. Rates for Transit Traffic Service are usage sensitive and are listed in Section 8 of this tariff.

Rate Per Minute
