

PSC No. 4 - Communications
CABLEVISION LIGHTPATH, INC.
Initial Effective Date: 1/22/2012

Leaf: 5
Revision: 0
Superseding Revision: n/a

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.12 Identification and Rating of VoIP-PSTN Traffic (Cont'd)

(C) Calculation and Application of Percent-VoIP-Usage Factor (Cont'd)

- (2) Lightpath will, likewise, calculate a factor (the "PVU-L") representing the percentage of Lightpath's total intrastate access MOU in the State that Lightpath originates or terminates on its network in IP format. This PVU-L shall be based on information, such as the number of Lightpath's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
- (3) Lightpath will use the PVU-C and PVU-L factors to calculate a PVU factor that represents the percentage of total intrastate access MOU exchanged between a Lightpath end user and the customer that is originated or terminated in IP format, whether at Lightpath's end, at the customer's end, or at both ends. The PVU factor will be calculated as the sum of: (A) the PVU-C factor and (B) the PVU-L factor times (1.0 minus the PVU-C factor).
- (4) Lightpath will apply the PVU factor to the total intrastate access MOU exchanged with the customer to determine the number of Relevant VoIP-PSTN Traffic MOUs.

Example 1: The PVU-L is 10% and the PVU-C is 40%. The PVU factor is equal to $40\% + (10\% \times 60\%) = 46\%$. Lightpath will bill 46% of the customer's intrastate access MOU at its applicable tariffed interstate rates.

Example 2: The PVU-L is 10% and the PVU-C is 0%. The PVU factor is $0\% + (100\% \times 10\%) = 10\%$. Lightpath will bill 10% of the customer's intrastate access MOU at Lightpath's applicable tariffed interstate switched access rates.

Example 3: The PVU-C is 100%. No matter what the PVU-L factor is, the PVU is 100%. Lightpath will bill 100% of the customer's intrastate access MOU at Lightpath's applicable tariffed interstate switched access rates.

- (5) If the customer does not furnish Lightpath with a PVU-C pursuant to the preceding paragraph 1, Lightpath will utilize a PVU equal to the PVU-L.
