

PSC No. 4 - Communications
CABLEVISION LIGHTPATH, INC.
Initial Effective Date: 1/22/2012

Leaf: 6
Revision: 0
Superseding Revision: n/a

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.12 Identification and Rating of VoIP-PSTN Traffic (Cont'd)

(D) Initial PVU Factor

If the PVU factor is not available and/or cannot be implemented in Lightpath's billing systems by December 29, 2011, once the factor is available and can be implemented Lightpath will adjust the customer's bills to reflect the PVU retroactively to December 29, 2011. In calculating the initial PVU, Lightpath will take the customer-specified PVU-C into account retroactively to December 29, 2011, *provided that* the customer provides the factor to Lightpath no later than April 15, 2012; otherwise, Lightpath will set the initial PVU equal to the PVU-L, as specified in subsection (C)(5), above.

(E) PVU Factor Updates

The customer may update the PVU-C factor quarterly using the method set forth in subsection (C)(1), above. If the customer chooses to submit such updates, it shall forward to Lightpath, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU-C factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. Lightpath will use the revised PVU-C to calculate a revised PVU. The revised PVU factor will apply prospectively and serve as the basis for billing until superseded by a new PVU.

(F) PVU Factor Verification

Not more than twice in any year, Lightpath may ask the customer to verify the PVU-C factor furnished to Lightpath and customer may ask Lightpath to verify the PVU-L factor and the calculation of the PVU factor. The party so requested shall comply, and shall reasonably provide the records and other information used to determine the respective PVU-C and PVU-L factors.
