SERVICE CLASSIFICATION NO. 4 (Continued)

The Company may require the customer to apply for service under this rate schedule upon the Company's prescribed written forms and to attach any applicable riders thereto. When accepted by the Company, such application shall constitute an agreement for the supply of service hereunder, but the customer's failure to submit such a written application shall not relieve it of the obligation to pay the rates and charges established herein for service subject to the provisions of this rate schedule. In no event shall a customer failing to execute a service agreement with the Company be eligible to participate in the Company's Retail Access Program for the portion of the load met by SC-4 Supplemental Service.

CHARACTER OF SERVICE:

Continuous. Three-phase alternating current, approximately 60 Hz. Company will determine the voltage available and appropriate for the customer's total Electric Service requirements.

PARENT SERVICE CLASSIFICATION RATES FOR SC-4 SUPPLEMENTAL SERVICE:

Customers receiving SC-4 Supplemental Service shall be assigned the following parent service classifications for supplemental service provided under this Rate Schedule:

1. Customers Served Under SC-3A Before September 1, 1998

When the sum of the customer's monthly demand for SC-4 Supplemental Service, CTC Exempt HLF Service, and PFJ and EDP Service under Rule 34, but excluding Niagara Power Delivery Service, has exceeded 2,000 kW in any two consecutive months of the previous twelve months, or whenever in the Company's opinion the applicant's demand will exceed 2,000 kW in any two consecutive months. Effective July 1, 2013, billed demands for Niagara Power Delivery Service shall also be included in determining whether the customer's demands exceed 2,000 kW. A customer once assigned under Service Classification No. 3-A and/or Parent Service Classification No. 3-A shall remain on this parent service classification until the monthly measured demand has been 1,500 kW or less for twelve consecutive months following the initial Term of Service.

2. Customers Served Under SC-3A After September 1, 1998

When the sum of the customer's monthly demand for SC-4 Supplemental Service, CTC Exempt HLF Service, Preservation Power Delivery Service, and PFJ and EDP Service under Rule 34, but excluding Niagara Power Delivery Service, has exceeded 2,000 kW in any six consecutive months of the previous twelve months, or whenever in the Company's opinion the applicant's demand will exceed 2,000 kW in any six consecutive months. Effective July 1, 2013, billed demands for Niagara Power Delivery Service shall also be included in determining whether the customer's demands exceed 2,000 kW. A customer once assigned under Service Classification No. 3-A and/or Parent Service Classification No. 3-A shall remain on this parent service classification until the monthly measured demand has been 1,800 kW or less for six consecutive months following the initial Term of Service.

3. All Other Customers

All customers receiving SC-4 Supplemental Service that do not qualify for Parent Service Classification No. 3-A will be assigned to Parent Service Classification No. 3.
