3.7 Service Offerings

The Company will provide the following services:

3.8.2 Inbound 8XX Service

Inbound Service is virtual inbound toll service which permits calls to be completed at the subscriber's location without charge to the calling party. Access to the service is gained by dialing a ten digit telephone number which terminates at the customer's location. Inbound services originate via normal shared use facilities and are terminated via the customers' local exchange service access line.

Carrier will accept a prospective Inbound service customer's request for up to ten (10) telephone numbers and will reserve such number(s) on a first come first serve basis. All requests for number reservations must be made in writing, dated and signed by a responsible representative of the customer. Carrier does not guarantee the availability of number(s) until assigned. The telephone number(s) so requested, if found to be available, will be reserved for and furnished to the eligible customer.

If a customer who has received an 800/888 number does not subscribe to the Company's Inbound service within 90 days, the company reserves the right to make the assigned number available for use by another customer.

SECTION 4 - MAXIMUM RATES AND CHARGES

4.1 Usage Charges and Billing Increments

4.1.1 Usage Charges

Usage is generally flat rated. However, if usage charges are determined by the time of day rate periods, the rate period is determined by the time and day of call origination at the customer's location.

4.1.2 Billing Increments

Usage is billed in the increments stated in the product description.

4.1.3 Rounding

All partial usage will be rounded up to the next highest billing increment. Partial cents will be rounded up to the next highest whole cent.

4.1.4 Taxes

All rates stated are exclusive of any applicable taxes.
