STAMPS: Issued in compliance with order in Case 11-G-0411 dated November 18, 2011

LEAF: 381
REVISION: 4
SUPERSEDING REVISION: 3

SERVICE CLASSIFICATION No. 18 – Continued

G. SPECIAL PROVISIONS – continued

4. Upon termination of service hereunder, the Customer may apply as a new applicant of the Company for gas service under the appropriate sales Service Classification as contained in the Company's Schedule for Gas Service, pursuant to the conditions for gas service contained therein.
5. All gas transported to the Company's point(s) of receipt for the Customer's account shall conform to all of the quality specifications set forth in 16NYCRR Part 229. The Company shall notify the Customer of any deficiencies in such quality specifications and may, at its option, refuse to accept delivery pending correction by the Customer.
6. Except as specified above, or in the Customer's NCT Service Agreement, all provisions of the sales Service Classification that would otherwise apply to services to the Customer are specifically incorporated herein and shall apply to the transportation, swing and standby services provided hereunder.
7. **A. Unauthorized Use Charge (NCTS-5):**

Gas consumed in excess of two therms per hour during periods that the Customer did not interrupt gas service when it was notified to do so without the express written authorization of the Company will be subject to an additional per therm charge of either (i) two times the sum of the Market Price for natural gas delivered to the Company's city gate on the day of violation plus the transportation rate the Customer would be subject to if it were a transportation Customer, or (ii) nine times the applicable sales rate, whichever is higher. All charges are subject to all utility taxes and surcharges. *Market Price* is defined as the highest city gate delivered price of natural gas at Transco Zone 6 NY, Texas Eastern M3 or Iroquois Zone 2 on the days of interruption, as quoted by Platts' "Gas Daily" report. In the event of consumption of gas during such periods the Company will have the right to estimate the amount of such consumption for the purpose of imposing the additional charge. Such estimate may be based upon the average daily consumption during periods of authorized consumption or upon any other reasonable method, including but not limited to the use of telemetering equipment.

Where a condition is experienced by the Customer that prevents the required transfer from gas, the Customer agrees to immediately notify the Company and to take immediate action to correct such condition, and to notify the Company when such condition has been corrected.
