

SECTION 5 - SUPPLEMENTAL SERVICES (cont'd)

5.2 CLASS SERVICES (cont'd)

5.2.2 Description of Features (cont'd)

e. Selective Call Acceptance

Selective Call Acceptance allows the customer to store a limited quantity of directory numbers in screening lists for the purpose of accepting certain incoming calls. When the special call-screening feature is activated, only those calls that originate from directory numbers contained in the screening lists are accepted. Customers that are not on the list are denied acceptance and are notified to that effect by an announcement.

f. Call ID and Name

Calling Number and Name Identification Service is the identical service as described in Section 5.2.2.a Call ID, with one addition. This service displays not only the telephone number but also the name of the subscriber as listed in the directory.

g. Anonymous Call Rejection

Where available, Anonymous Call Rejection (ACR) allows a customer subscribing to Call ID or Call ID and Name to reject calls automatically if the calling party is using either per call blocking or per line blocking. Customers subscribing to Call ID or Call ID and Name service may activate or deactivate ACR by dialing an appropriate code. With ACR activated, the called party's phone will not ring, and the calling party will hear an announcement advising that the anonymous call will not be accepted. There will be no charge to the calling party for anonymous calls thus rejected. Upon customer request, ACR will be removed from a customer's line without charge. A Record Order Charge will apply to add ACR capability back onto a customer's line after it has been removed.
