**Special Provisions (continued):**

- (c) Remote Reading Devices: A Customer is required to have a remote reading device installed for service under this Service Classification. A Customer must provide and maintain a dedicated telephone connection point within fifteen (15) feet of the remote reading device and bear all applicable telephone charges for communicating meter usage information to the Company.
- (d) Service Separately Metered: Service rendered hereunder shall be for a single Customer at a single location and is not available to subtractive metered accounts. Service provided under this Service Classification shall be separately metered and shall not be combined with service provided by the Company under any other Service Classification, except under Service Classification No. 4.
- (e) Reassignment of Gas: A Customer that takes service under this Service Classification must take delivery of the gas at its facilities and may not remeter (or submeter), resell, assign, or otherwise dispose of the Customer-owned gas to others for delivery at other facilities on the Company's system.
- (f) Customer's Obligations: Customers or Suppliers shall make all necessary arrangements, obtain all necessary regulatory approvals and be responsible for all costs including taxes to appropriate governmental entities for the acquisition and transportation of the Customer's gas supply.
- (g) Except as specified above, or in the Customer's Service Agreement, all provisions of the sales Service Classification that would otherwise apply to services to the Customer are specifically incorporated herein and shall apply to the transportation, swing and standby services provided hereunder.
- (h) Warranty of Title: Seller warrants that, at the time of delivery of gas to the Company, Seller or Customer will have good title to deliver all gas volumes made available.
- (i) Periodic Review of Distribution System Operating Constraints: The Company will review the operating constraints on its distribution system on a periodic basis. To the extent the Company finds, as a result of that review, that those constraints have changed, the Company will notify any affected Customers accordingly. If a DSRS Customer's location on the system has been upgraded, the Company will give the Customer the option of electing to receive service under one of the other categories in this service classification. If the location of any Customer receiving service under any of the other categories in this service classification has been downgraded to the point that the Customer's location is in a constrained area, the Company will immediately transfer the Customer to the DSRS category.
