## **GENERAL INFORMATION**

### **13. SERVICE CLASSIFICATION RIDERS (Continued)**

#### **RIDER N (Continued)**

#### **NET METERING FOR CUSTOMER GENERATORS**

##### **METERING**

At the discretion of the Company, one or two meters will be used to separately meter the flow of energy in each direction. If the customer requests metering equipment that is not required by the Company, such metering equipment shall be installed at the customer's expense.

Meter Upgrades shall be made in accordance with General Information Section No. 7.3 (E). Customer Meter Ownership and Competitive Metering Services are available as described in General Information Section Nos. 7.3 (C) and 7.3 (D), respectively. Eligible customers selecting Competitive Metering Services must obtain Competitive Metering Services for all meters on the account.

##### **BILLING**

For purposes of this section, "applicable tariff rate per kWh" refers to all per kWh charges applicable to service provided to similarly situated full service customers in the same Service Classification who do not generate electricity.

The Company will employ net energy metering to measure and charge for the net energy supplied and/or delivered by the Company as follows:

- (A) If the amount of energy supplied and/or delivered by the Company exceeds the amount of energy supplied to the Company (net purchase by customer), in a billing period in the case of Service Classification Nos. 1, 2, and 3, or in a time-of-use rating period in the case of Service Classification Nos. 9, 19, 20, 21, and 22, the customer will be billed for such net purchase at the rates specified in the customer's otherwise applicable Service Classification, including applicable demand charges.
