The following information must be submitted along with this application form:

- Six (6) finalized grading/profile/utility plans showing water, sewer, drainage and utility plan. Indicate both the meter and padmount transformer (if applicable) locations. Doors and windows in the area of the transformer must be specifically noted on the plan.
- Certified copies of the deeds to the subject property.
- One-line diagram of your proposed metering installation.
- One-line diagram and manufacturing specifications on generator automatic transfer switches.

Note: ALL metering equipment and transfer switches must be approved by O&R prior to purchase.

Transformer delivery requires 4-month lead time for procurement from the manufacturer.

Inadvertent contact with buried gas lines, cables or other utility lines can cause injury to workers and disrupt service to entire neighborhoods. Help avoid unnecessary system damage and prevent emergencies before they happen. Remember to CALL 811, the nationwide "Call Before You Dig" number.
