PSC No.: 1
Effective Date: April 28, 2012

Section: 0
Leaf No: 8
Revision: 0
Superseding revision:

TARIFF FORMAT

Page Numbering

Page numbers appear in the upper right corner of each page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 2 and 3 would be 2.1.

Page Revision Numbers

Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current version of the page on file with the New York Public Service Commission. For example, the 4th Revised Page 14 cancels the 3 Revised Page 14.

Paragraph Numbering Sequence

There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:

2
5.1
2.1.1
2.1.1.1

Check Sheets

When a tariff filing is made with the Commission, an updated Check Sheet accompanies the filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the forms, etc, remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.
