

ComNet (USA) LLC
PSC No.: 1
Effective Date: April 28, 2012

Section: 7
Leaf No: 3
Revision: 0
Superseding revision:

SECTION 7: LOCAL CALLING SERVICE

7.4 Extended Area Calling

Extended Area Calling provides for calling on a measured rate usage basis to specified exchanges located outside of a Customer's local calling area. Calls are billed in one-minute increments with an initial billing period of one minute per call. The rates set forth in this section apply to calls placed to the caller's extended area calling exchanges listed in Section 4.2.2.

	<u>1YR</u>	<u>2YR</u>
Rate per minute	\$0.035	\$0.032

7.5 InterLATA and InterLATA Toll Carrier

Customers have the opportunity to designate a carrier for their intraLATA and InterLATA toll call traffic where ComNet provides local exchange service. InterLATA and InterLATA toll calls will automatically be directed to the designated carrier without the customer having to dial an access code. Aitemately, customers may option to have a "No PIC" designation on their line, If a customer cannot decide at the time of placing a order on a intraLATA and InterLATA carrier, the Company may extend a 30 day grace period following the order placement for the customer to select a carrier and in the interim will be assigned a "No PIC" designation. Customers with a "No PIC" designation will be required to use an access code to reach an intraLATA or InterLATA carrier's network. If a customer changes their designated carrier or changes their designation from "No PIC" to a carrier, a \$5.00 charge will be billed to the Customer for each PIC change that occurs.
