SECTION 5: EXCHANGE ACCESS SERVICE

5.8 ISDN Primary Rate Interface (PRI) Service (cont'd.)

5.8.2 Optional Features for Circuit Switched Voice and Circuit Switched Data Services(cont'd.)

D) 2B Channel Transfer

Allows the Customer's CPE to more efficiently use PHI trunk connections for ISDN calling. If an inbound call is forwarded or transferred using two channels in a PM, the channels that were used to make the connection can be dropped and made available to future calls.

Monthly Recurring Charge: \$75.00 Non-Recurring Charge: \$100.00

E) Caller Name and Number Delivery (Caller ID)

Enables the Customer to receive the name and number of the calling party at a PBX station equipped with a customer-provided display. The Customer must have a PBX or Key System that is ISDN NI-2 compliant and can accept a PRI.

Monthly Recurring: \$350.00 Non-Recurring Charge: \$50.00

F) Outbound ANI Over T1

Enables ComNet outbound Customers to deliver a pre-programmed calling name and calling number over their T1 Trunks. The Customer can request a specific name and number to be delivered when they make an outbound call.

Monthly Recurring Charge: \$50.00 Non-Recurring Charge: N/A
