SECTION 5: EXCHANGE ACCESS SERVICE

5.8 ISDN Primary Rate Interface (PRO Service cont'd.)

5.8.2 Optional Features for Circuit Switched Voice and Circuit Switched Data Services

Optional features for ComNet ISDN PRI Service are as follows:

A) Backup "D" Channel Arrangement

Provides backup for a primary "D" channel under those circumstances where multiple ISDN Prime connections share a "D" single channel. A predetermined "D" channel on another PRI connection would automatically take over call control and signaling functions.

Monthly Recurring Charge: \$50.00 per backup D channel

Non-Recurring Charge: \$50.00 per backup D channel

B) System Intercommunication Service

Allows ComNet ISDN PM "B" channels to connect to a Centrex business system or another ComNet ISDN PRI that originates in the same central office. This feature is offered on a per trunk group basis only.

Rate: Individual Case Basis

C) Call by Call for FX and Tie Lines

Allows Foreign District (FX) and Tie Line calls to be directed to and originated from ISDN PRI "B" channels. This provides Call by Call service selection for incoming and outgoing Circuit Switched and Private Facility services.

Rate: Individual Case Basis

Issued By: Linda Peng, Secretary, 700 South Flower Street, Suite 750, Los Angeles, CA 90017

Cancelled effective 10/15/2018.
