SECTION 5: EXCHANGE ACCESS SERVICE

5.12 Private Line Service

5.12.1 Description

Private Line Service provides a dedicated transmission path on a point-to-point basis that does not interface with a Company switch. Private Line is an IntraLATA service and is offered on a DS3, 00, 0C12 and 0C48 level. Private Line Service can be utilized either by collocated customers or by customers in a location that is served by the Company's fiber network.

5.12.2 Restrictions

The following restrictions apply to Private Line Service:

1. If only one or none of the end-points is on the fiber network, the Private Line Service is then limited to a DS3 level.
2. Private Line Service for service levels above 0C3 is available on an individual case basis.

5.12.3 Pricing
