Section: 2
Leaf No: 33
Revision: 0
Superseding revision:

SECTION 2: REGULATIONS

2.13 Demarcation Points

(A) Responsibilities

The Company will provide facilities, equipment, and services to its local loop demarcation point. The Company is responsible for the provisioning and maintenance of its facilities equipment, and services to the local loop point, including those located at that point and the demarcation point itself.

The customer is responsible for the completion of services beyond the Company's local loop demarcation point.

Customer-requested services beyond the local loop demarcation point may be provided by the Company at the Customer's expense.

(B) Local Loop Demarcation Point

- (1) The Company's Local Loop Demarcation Point separates the Company's network responsibility for its facilities, equipment and services from that of the building owner or end-user customer. This demarcation point designates the end of the Company's network facilities (local loop) and the beginning of the intrabuilding network cable (NC), if any, provided by the building owner.

Where a Local Loop Demarcation Point lacks sufficient power and/or space to support provisioning of new service, such service will be provisioned as close at practicable to the existing demarcation point.

- (2) The Local Loop Demarcation Point may also be referred to as the Minimum Point of Entry (MPOE) or Minimum Point of Presence (MPOP) for the purpose of defining the end of the Company's network facilities.
- (3) The Local Loop Demarcation Point is located at the MPOE/MPOP to any single or multi-story building, and includes the company's entrance facility, except as set forth in Paragraph 4 following. The Company will not be required to place its demarcation point on more than one floor of a multi-story building.
