

Onvoy, Inc. d/b/a Onvoy Voice Services
Effective: April 23, 2012

New York PSC No. 1 – Access Service
Leaf: 57
Revision: 0
Superseding Revision:

SECTION 5. SWITCHED ACCESS

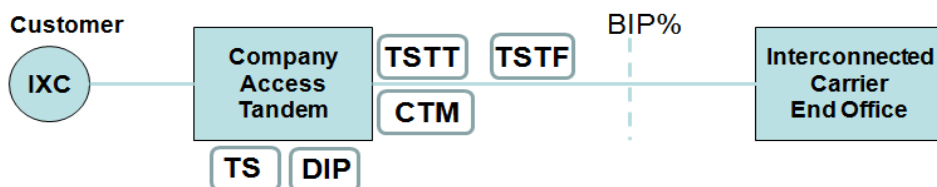

II. Provision and Description of Switched Access Service Arrangements (Continued)

D. Customer Options to Connect to Company Network

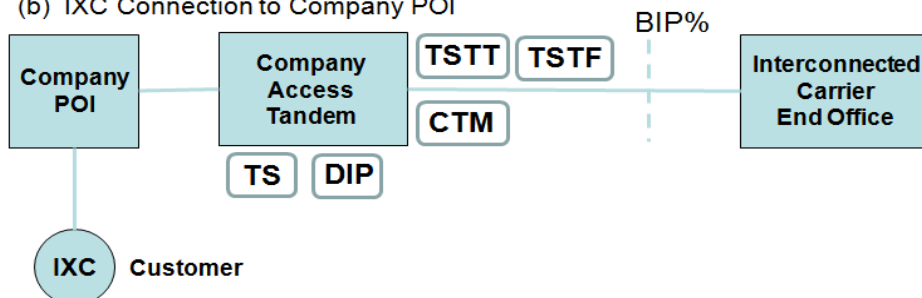

A Customer can connect to the Company's Access Tandem by one of two methods: directly to a Company Access Tandem or to a Company's Point of Interconnection (POI). The following diagrams illustrate these options and the applicable rate elements.

Company operating as Access Tandem Provider

(a) IXC Direct connection to Company's Access Tandem

(b) IXC Connection to Company POI

<u>Rate Element</u>	<u>Rate Element Description</u>
CCL	Carrier Common Line
LS	Local Switching
DIP	8XX Data Base Dip (where applicable)
EOSP	End Office Shared Port
TSTT	Tandem Switched Transport Termination
TSTF	Tandem Switched Transport Facility
