INTRASTATE SWITCHED ACCESS SERVICES TARIFF

SECTION 3 - DESCRIPTION OF SERVICE (CONT'D.)

3.2 Provision and Description of Switched Access Service Arrangements (Cont'd.)

3.2.3 Call Types

The following Switched Access Service call types are available:

- A. Originating FG Access
- B. Originating 800 FG Access
- C. Terminating FG Access

3.2.4 Originating FG Access

The access code for FG Access switching is a uniform access code of the form 1 + or all + or 101XXXX. For 101XXXX dialing, a single access code will be the assigned number of all FG Access provided to the Customer by the Company. When the access code is used, FG Access switching also provides for dialing the digit a for access to the Customer's operator service, 911 for access to emergency service, and/or the end of dialing digit (#) for cut through access to the Customer's premises. The Company will provide originating FG access consistent with dialing parity obligations.

3.2.5 Originating 800 FG Access

800 Data Base Access Service is a service offering utilizing originating Trunk side Switched Access Service. When an 8XX + NXX + XXXX call is originated by a Subscriber, the Company will perform Customer identification based on screening of the full ten-digits of the 8XX number to determine the Customer location to which the call is to be routed.
