SERVICE CLASSIFICATION No. 6G - Continued

Heating Value Adjustment:

Volumes of gas registered at the Customer's meter, in Ccf, will be converted to therms, as explained on General Information Leaf No. 38.

Term:

Unless otherwise reflected in an individually negotiated service agreement under Rate Schedule 3, or as otherwise provided in this Rate Schedule, service under this Service Classification will be for a period of one year from the date of commencement of service and thereafter until terminated by either party. The service agreement is terminable by either party after one year from the commencement of service on six months written notice to the other or terminable in the manner provided by law and the rules and regulations set forth in the Company's Rate Schedule, on file with the Public Service Commission.

Special Provisions:

General:

- a. Unless otherwise expressly authorized by the Company in writing, the "alternate fuel" hereunder will be No. 2 fuel oil.
- b. The "Local Outside Temperature" for the purposes of a local switchover will be the temperature as measured outside of the Customer's premises.
- c. The "Central Park Temperature" for the purposes of a Company-initiated interruption will be the temperature measured at the Central Park Observatory.
- d. The "Designated Temperature(s)" will be the temperatures set annually prior to the winter season by the Company. The Company reserves the right to adjust this temperature setting, based on system needs, with a minimum forty-eight (48) hours notice to Customers. There will be a "Designated Interruption Temperature" when a Customer's equipment will be switched over to an alternate fuel and a "Designated Resumption Temperature" when the Customer's equipment may be switched back to natural gas. There may be different Designated Temperatures for Customers with fully automatic controls and Customers with semi-automatic controls.
