Superseding Revision: 0

GENERAL RULES

24. Service Classification Riders (Available on Request) – Continued

RIDER R - Net Metering for Customer-Generators - Continued

G. Charges and Credits

1. Charges to a Customer Served Under this Rider

- a. The Customer will pay the rates and charges of the Customer's applicable Service Classification for net energy supplied by the Company. If the Customer is served under time-of-day ("TOD") rates, the charge for net energy supplied by the Company will be determined for each time period.
- b. A Customer served under this Rider shall pay any customer charge or minimum charge, Billing and Payment Processing Charge, and/or Charges for Metering Services, and any other rates and charges under the Customer's applicable Service Classification regardless of whether the amount of energy produced by the generating equipment is less than, equal to, or greater than the amount of energy used by the Customer. A Customer taking service under a demand-billed Service Classification shall pay kW delivery charges and kW Market Supply Charges based on the maximum demand delivered by the Company to the Customer during the billing period.
- c. The following provisions are applicable to all Customers served under this Rider except for Satellite Accounts:

The Customer will be exempt from the Minimum Monthly Charge specified in General Rule 10.10. A Customer served under both this Rider and Rider Y shall be subject to all Rider Y terms and conditions, except that Contract Demand will not be used to determine demand delivery charges. The maximum rate in Rate I of SC 9 will not be applicable to Customers served under this Rider. If a Customer is served under both this Rider and Rider J, the Energy Delivery Charge reductions under Rider J will be applicable only to the net energy delivered by the Company.

- d. A Retail Access Customer may enter into a net metering arrangement with an ESCO. The Customer will pay the applicable rates and charges of the Customer's Service Classification based on the net amount of energy delivered by the Company during a billing period. The Customer will receive credits for supplying net energy to the Company as set forth in paragraph 2 below.
