P.S.C. No. 6 -- Telephone
Local Exchange Services
Effective Date: December 16, 2011

Section 9
Leaf No. 1
Revision: 0

SECTION 9 – PRIMEONE LOCAL AND PRIMEPLUS INTRALATA TOLL SERVICES

9.1 LATA Calling Services

9.1.1 Description

LATA Calling Services allow for the origination and termination of calls within local and toll calling areas from listed exchanges. Local and Toll calling plans are marketed under the brand names of PrimeOne and PrimePlus services respectively, and are provided in conjunction with connection to the Company's network via the access lines listed:

9.1.2 Classes of Calls

Service is offered as two classes: station to station calling and person to person calling.

- A) Station to Station Service is that service where the person originating the call dials the telephone number desired or gives the Company operator the telephone number of the desired telephone station or system.
- B) Person to Person Service is that service where the person originating the call specifies to the Company operator a particular person to be reached, a particular mobile unit to be reached, or a particular station, department or office to be reached. The call remains a person to person call when, after the telephone, mobile telephone, or PBX system has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other agreed upon alternate.
