SECTION 13 – INTEGRATED PRIME SERVICE

13.1 Description (Cont'd)

4. If the service is terminated in whole or in part by the customer after initial installation, but prior to the completion of the service period, the customer shall be liable for the charges applicable for the remaining contract period. The formula for such charges is number of lines times number of months remaining times line rate.
5. If customer adds lines after initial installation during the time of the contract and these additional lines consist of less than or equal to 50% of the original order, the additional lines are contracted at the same rate as the initial lines, but the contract termination date shall be the original contracted date.
6. If customer adds lines after installation during the time of the contract and these additional lines in total consist of more than 50% of the original order, then a new contract must be executed with a new termination date and at the current tariffed rate for all lines.
7. Customers relocating within the same TCG metropolitan service area where Integrated Prime Service is available may continue on the same contract, subject to additional installation and service order charges.
8. Customers extending service beyond the contract period without a new contract will automatically renew on a month-to-month basis at the highest available line, feature and usage rates associated with Integrated Prime Service.
9. Standard line treatment options for blocking apply to all lines, as well as standard 4 digit dialing plans for internal Integrated Prime Service system calling.
10. Enhanced features are available for an additional charge as described for PrimePath, PrimePath NBX or Prime Digital Trunks services.

13.2 Features

All Standard, Implemented, Optional and Enhanced features offered for use with PrimePath Service, PrimePath NBX Service, and Prime Digital Trunk are available for use with Integrated Prime Service, and at the rates and charges specified in this tariff.
