LOCAL EXCHANGE SERVICES TARIFF

SECTION 5 - SUPPLEMENTAL SERVICES

5.1 Custom Calling Service (Cont'd.)

5.1.2 Description of Features (Cont'd.)

B. Call Forwarding

Call Forwarding, when activated, redirects attempted terminating calls to another customer-specific line. The customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding.

The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the customer with the Call Forwarding is billed for the forwarded leg of the call.

Call Forwarding - Busy automatically reroutes an incoming call to a customer pre-designated number when the called number is busy.

Call Forwarding - Don't Answer automatically reroutes an incoming call to a customer pre-designated number when the called number does not answer within the number of rings programmed by the Company.

Call Forwarding - Variable allows the customer to choose to reroute incoming calls to another specified telephone number. The customer must activate and deactivate this feature.
