ACCESS SERVICES TARIFF

SECTION 8 - MISCELLANEOUS SERVICES

8.1 Wireless Termination Service

This tariff applies to intraMTA traffic originated by a Commercial Mobile Radio Service (CMRS) provider and terminated to end-user subscribers of the Company (i.e., wireless to wireline traffic) without the direct interconnection of the CMRS provider's and the Company's networks and where the CMRS provider is physically connected with and delivers traffic to a third party ILEC(s) which in turn delivers the traffic to the Company.

- 8.1.1 This service is provided to Commercial Mobile Radio Service (CMRS) providers licensed by the Federal Communications Commission (FCC).
- 8.1.2 Wireless Termination Service is limited to wireless-to-wireline traffic that originates and terminates within the same Major Trading Area (MTA) (i.e., intraMTA traffic). The Major Trading Area as defined in 47 C.F.R. paragraph 24-102 of the FCC Rules and Regulations.
- 8.1.3 Wireless Termination Service is not available to wireless-to-wireline traffic that originates and terminates in two different MTAs (i.e., interMTA traffic). In those situations where a CMRS provider terminates interMTA traffic to the end-user subscribers of the Company then the rates, terms and conditions of the appropriate access tariff of the Company (either intrastate or interstate) will apply.
- 8.1.4 These Regulations and Rates are in addition to the Regulations, Rate and Charges in other Company tariffs.
- 8.1.5 This tariff applies except as otherwise provided in 1) an interconnection agreement between the CMRS provider and the Company approved by the Commission pursuant to the Act; or 2) a terminating traffic agreement between the CMRS provider and the Company approved by the Commission.
