GENERAL RULES

Application Forms – Continued

Form G – Application for Net Metering or Standby Service and/or Buy-Back Service- Continued

Section 4. If you request Standby Service

A. Billing

Standby Service rates are Rates III and IV of SC 5, Rates IV and V of SC 8, 9, and 12 (demand), and Rate II of SC 13.

The following Customers who take Standby Service are exempt from billing under Standby Service rates. Check below, if applicable:

- ☐ The generating equipment has a nameplate rating equal to no more than 15% of the maximum potential demand from all sources.
- ☐ The account would otherwise be billed under a non-demand-metered SC (SC 1, SC 2, SC 7, or SC 12 energy only).

The following Customers who take Standby Service are exempt from billing under Standby Service rates, unless they specifically request to be billed under those rates. Check below, if applicable:

- ☐ The contract demand is less than 50 kW.
- ☐ Generation is exclusively by means of a designated technology (See “B” below) and will commence operation no later than May 31, 2015.
- ☐ I request that my account be billed under Standby Service rates. (Note: If you do not check off this box, you will be billed under standard SC 8, 9, 12, or 13 rates.)

B. If using a Designated Technology or Technologies

If you request an exemption from Standby Service rates because the generation exclusively uses one or more of the following technologies or fuels, please check off the box or boxes that apply:

- ☐ Fuel Cell ☐ Wind ☐ Solar Thermal ☐ Photovoltaic
- ☐ Sustainably-Managed Biomass ☐ Tidal ☐ Geothermal ☐ Methane Waste
- ☐ Combined Heat and Power (CHP) of 1 MW or less meeting the requirements described in Section 7

C. Electricity Supply

Con Edison will provide electricity supply to supplement your on-site generation or when your generation is not running, unless you enroll in the Retail Access Program through PowerMove or an ESCO or as a Direct Customer, as described in General Rule 19.

If you plan to be a Direct Customer, check here: ☐
