GENERAL RULES

24. Service Classification Riders (Available on Request) - Continued

RIDER U – DISTRIBUTION LOAD RELIEF PROGRAM - Continued

G. Data Review

The Company reserves the right to review records and/or operations of any Customer, Aggregator, customer of an Aggregator, or MDSP to verify enrollment information and performance associated with a designated Load Relief Period or one-hour Test Event called by the Company. Once the Company initiates a data review, all payments will be suspended pending the outcome of the review. The Company will complete its review within 30 days of receipt of all requested data. Any suspended payments will be reinstated if the Company's review of the data results in a finding that the enrollment and performance information are correct.

If the Company determines that a Customer, Aggregator, customer of an Aggregator, or MDSP failed to cooperate fully and promptly with the review and/or did not fully comply with the provisions of this Rider and/or provided inaccurate data, the Customer or the customer of the Aggregator will be deemed ineligible to participate in the program until the issue is rectified. In addition, the Customer or Aggregator will be required to make prompt repayment to the Company of any payments that were made to such Customer or Aggregator, on behalf of its customer, for the Capability Period that was reviewed as well as the current Capability Period, if different.

H. Aggregation

1. All customers of an Aggregator must meet the metering and telecommunications requirements of this Rider.
2. An Aggregator is responsible for the compliance of all customers in its aggregation group and will be liable for performance, including, as applicable, repayments to the Company.
3. When the Company designates a Load Relief Period or calls a Test Event in a Network, only the Aggregator will be notified. The Aggregator is responsible for notifying all of the customers within the aggregation group.
