GENERAL RULES

19. Retail Access Program – Continued

19.3 Energy Service Company (“ESCO”) Participation - Continued

19.3.3 Interval Information

Except for meters served by Meter Data Service Providers, the Company will provide through the Internet interval information for the current billing cycle to ESCOs and Direct Customers for Customer accounts having interval meters with operating telemetry capability. Information for the current billing cycle will be provided without a charge at the end of the billing cycle. The Company will provide, at an ESCO’s request, access to such information on a more frequent basis for a fee, payable in advance.

Daily access fee: \$241.00 per year
Weekly access fee: \$27.00 per year

19.3.4 Information About the Company’s Charges

To enable an ESCO to determine the lowest amount that a Customer must pay to end a suspension of service, the Company shall charge \$8.00 to an ESCO per bill per service for each account on which the ESCO requests that the Company calculate what it would have charged the Customer had the Customer purchased commodity from the Company. The Company will calculate a bill under this Rate Schedule as though the Customer were a Full Service Customer; subtract the amount of the bill issued under this Rate Schedule for Retail Access Service for the same period; and provide the difference to the ESCO. The Company will accept ESCO requests by electronic mail only. The Company will cease to provide this service once its self-service bill calculation facility becomes available.

19.3.5 ESCO Customers’ Information

An ESCO may obtain a list of its enrolled Customers at no charge.

An ESCO may request and will be provided summary customer data (that is, the number of accounts enrolled with the ESCO and total sales), as provided in the UBP, which states the frequency with which such information will be provided at no charge. The Company will charge \$16.00 per request for summary customer data in excess of that provided at no charge.
