SERVICE CLASSIFICATION No. 6M - Continued**Customer Responsibility:**

- a. It is understood and agreed that as a condition of service hereunder Customers are required to transfer their fuel supply from gas to an alternate fuel source when the first of the Local Outside Temperature or the Central Park Temperature reaches the Designated Interruption Temperature.
- b. Unless otherwise expressly authorized by the Company in writing, a supply of alternate fuel sufficient to meet the Customer's fuel consumption needs for a period of ten (10) days is the minimum required standby alternate fuel supply at the beginning of the heating season.
- c. Customer will at all times maintain dual-fuel equipment and a sufficient standby alternate fuel supply throughout the heating season in the event that transfer off of natural gas is required pursuant to this Service Classification.
- d. Such dual-fuel equipment and all associated control devices, the installation and the subsequent operation thereof will be subject to the Company's inspection and requirements.
- e. Customer agrees to be solely responsible for the service, maintenance, repair and upkeep of all dual-fuel equipment and all associated control devices, including any control devices owned by the Company and any changes to the Customer's equipment and/or controls directed by the Company. Customers with semi-automatic equipment are responsible for maintaining an alarm notifying them that the Designated Interruption Temperature has been reached and that a switchover to an alternate fuel is necessary. The Company assumes no responsibility for the adequacy of standby facilities and will not be liable for any loss, damage or expense, direct or indirect, that may be incurred by the Customer or others in connection with or as a result of any curtailment or discontinuance of gas service pursuant to this Rate Schedule.
