

PSC NO: 4 - Steam  
Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 10/17/2011

Leaf: 49.7  
Revision: 0  
Superseding Revision:

## **GENERAL INFORMATION - Continued**

### **7. Service Classification Riders (Available on Request) - Continued**

#### **RIDER G - Customer Sited Supply Pilot Program - Continued**

##### **C. Application**

Applications for service under this Rider must be made electronically or in writing upon the application form set forth at [www.coned.com/steam](http://www.coned.com/steam). Each application must contain the Customer's Maximum Steam Export Quantity, which must be established by a professional engineer retained by the Customer.

The Company will evaluate completed applications for service under this Rider on a case-by-case basis as received. Due to the need to ensure that the Customer Sited Supply Pilot Program works in a safe and reliable manner, the Company's evaluation and acceptance of an application will include consideration of the following criteria:

- a. the effect of the CHP facility's interconnection on the safety and integrity on the Company's steam system, e.g., pressure, temperatures, steam quality, and flow rates;
- b. the availability of Customer-generated steam, e.g., the CHP facility's installation date, plant capacity, on-site needs, supply profile, location, and participation in electric demand response programs;
- c. the operating profile of the CHP facility, e.g. dispatch parameters, estimated/actual Equivalent Forced Outage Rate Demand ("EFOR'd"), fuel flexibility, unit efficiency, and unit reliability;
- d. the Maximum Steam Export Quantity (Mlb/hr) specified in the Customer's application for participation under this Rider; and
- e. the design of the CHP facility and its ability to comply with the Company's interconnection requirements specified in the Customer Sited Supply Operating Procedure ("CSS Procedure").

The Company will notify applicants as to whether they are accepted to participate under this Rider, and, if selected, the Maximum Steam Export Quantity approved by the Company. Selected applicants must confirm their agreement to participate, either electronically or in writing, within 10 business days after receipt of the Company's notice.
