COMPETITIVE TELECOMMUNICATIONS SERVICE TARIFF

SECTION 10 - CENTREX SERVICES (CONT'D.)

10.2 RealBusiness \$ense Centrex Service, (Cont'd.)

10.2.4 Integrated DSL Option

A. Description

Integrated DSL, an integrated voice and ADSL Internet service bundled over a single twisted pair, is available as an option. Integrated DSL uses Asynchronous Transfer Mode (ATM) with voice compression and dynamic bandwidth allocation in providing service over a single pair with voice always taking precedence over Internet traffic. ADSL speeds will be up to 1.5 Mbps downstream and 512 kbps upstream. Bandwidth is dynamically allocated and will be reduced from 80 kbps to 1.2 Mbps downstream and 80 kbps to 192 kbps upstream depending on the number of Basic Business Lines that are simultaneously off-hook.

B. Terms and Conditions

Subscribers must maintain a minimum of two (2) Centrex Lines throughout the duration of the term agreement. The standard early termination charge will apply to Subscribers who fall below the minimum.

C. Limitations

See Section 6.2.10.C of this tariff.

Issued By: Vice President, Tax, Atlanta, Georgia 30309
