COMPETITIVE TELECOMMUNICATIONS SERVICE TARIFF

SECTION 6 - BASIC BUSINESS SERVICES (CONT'D.)

6.2 Service Descriptions and Rates, (Cont'd.)

6.2.2 NetServe Basic Business Line

A. General

NetServe Basic Business Line is provided via one or more channels terminated at the Customer's premises. Each NetServe Basic Business Line channel corresponds to one or more analog, voice-grade telephonic communications channels that can be used to place or receive one call at a time.

NetServe Basic Business Line enables the Customer to:

1. originate and receive calls from other stations on the public switched telephone network;
2. access the Company's local calling service;
3. access the Company's operators and business office for service related assistance; access toll-free telecommunications service such as 800 NPA; and access 911 service for emergency calling; and
4. access the service of providers of interexchange service. A Customer may presubscribe to such provider's service to originate calls on a direct dialed basis or to receive toll-free service from such provider, or may access a provider on an ad hoc basis by dialing the provider's Carrier Identification Code (such as 10XXX or 101XXXX).
