COMPETITIVE TELECOMMUNICATIONS SERVICE TARIFF

SECTION 6 - BASIC BUSINESS SERVICES (CONT'D.)

6.2 Service Descriptions and Rates, (Cont'd.)

6.2.4 Netflex T-1 Service With DID

A. Description

Netflex T-1 Service With DID ("Netflex"), offered on a measured basis, provides a digital path from a suitably equipped central office to a Customer's digital PBX, allowing access to and from the exchange and toll network via exchange trunk lines, and other network access lines, including DID capability.

A 1.544 Mbps transmission channel providing two-way transmission for a capacity of up to 24 trunk connections connects a Customer's premises with the switched public telephone network.

Outbound Caller ID and Call Forward on Trunks are available and may be purchased for an additional charge, where facilities permit.

Netflex is furnished subject to the availability of facilities.

Issued By: Vice President, Tax, Atlanta, Georgia 30309
