

PSC No: 19 - Electricity  
Rochester Gas and Electric Corporation  
Initial Effective Date: December 1, 2012

Leaf No. 30  
Revision: 1  
Superseding Revision: 0

## GENERAL INFORMATION

### 2. HOW TO OBTAIN SERVICE (Cont'd)

#### **F. LIMITATIONS OF SERVICE OFFER (Cont'd)**

(2) Minimum Insulation Standards for the Provision of Electric Service (Cont'd)

(d) Certificate of Compliance

A Certificate of Compliance (see Rule 7.E.1) shall be used in all areas of the State where no local authority exists, to assure compliance with the insulation requirements of the Energy Conservation Construction Code.

Each Certificate of Compliance shall be signed by the builder or contractor and the owner shall receive a copy of such certificate.

(e) Compliance Procedures

In areas where there is no local building code authority, upon a complaint by a dwelling owner or tenant concerning non-compliance with the provisions of Rule 2.F.2.b, the Company will perform an on-site inspection to determine conformance with the standards concerning roofs, walls, foundation walls, floors, windows and doors. The result of this inspection will be provided in writing to the owner (and tenant when applicable) of the dwelling.

Whenever the Company finds, as a result of such inspection or notification by the local building code authority, more than one outstanding complaint against any particular contractor wherein a dwelling constructed by such contractor or builder was found to be in non-compliance with the applicable standards, the Company shall refuse to provide electric service to any construction site of that contractor or builder until all existing violations are corrected. The Company shall undertake random inspections of the future construction work of a past non-complying contractor or builder until such time as the Company is satisfied that the applicable standards are being met.
