

2.5 SERVICE OPTIONS *continued*

2.5.53 Frontier Digital Phone Service (Continued)

B Usage Charges (Continued)

Frontier may suspend, restrict or cancel the Customer's service, subject to applicable notice requirements. If it is determined that the usage on the Frontier Digital Phone Unlimited Service is not consistent with residential voice applications, substantially exceeds average residential use, or is otherwise prohibited (such as long distance dial-up Internet calls), Frontier may immediately convert the service to an FCA plan that charges for all long distance calls or, where systems permit, charge a 10 cent per minute rate for non-voice long distance calls, or calls that are not considered normal residential voice usage. Additional restrictions may apply.

On the invoice there will be no individual call detail for usage that is associated with the unlimited direct dialed calls that are included in this plan. If the customer changes their long distance pre-subscription on their main line without any instruction as to what to do regarding the additional phone lines, the Frontier Digital Phone Unlimited Service plan option will automatically be removed from the main line and thus the customer's account. Additional phone lines are available on this plan. Each additional line will be billed a-per minute domestic rate defined in this price list. All calls are billed in one-minute increments with a minimum billing of one minute per call. If a customer subsequently does not pre-subscribe their additional line(s) to FCA but continues to have service on the main billing number on the account provided by FCA, casual calling rates on the additional line(s) will apply.

8xx inbound products may be used in conjunction with Frontier Digital Phone Unlimited Service, where available.
