LOCAL EXCHANGE SERVICES

SECTION 4 - MARKET SPECIFIC PRICING PLANS, (Cont'd.)

4.1 Rochester Market, (Cont'd.)

4.1.1 ChoiceXchange Product Set

A. Line and Calling Plans

ChoiceXchange lines provide local voice service via a POTS line to the customer's location. There are three products within the ChoiceXchange product set:

- Standard Xchange Line Service,
- Xchange Advantage Line Service, and
- Local Measured Service Calling Plans ("Local Choice Call Packs")

All ChoiceXchange and Xchange Advantage lines are provided with local measured service on a per minute basis. The same usage plan must be selected for all lines providing local service at the same service location. These plans (local Choice Call Packs) are described below and the associated rates may be found in Section 13. If a customer does not wish to purchase a local Choice Call Pack, all local usage will be rated at the standard rate indicated in Section 13.

An Xchange Advantage line is a basic Xchange line packaged with up to eight optional calling features (see Sections 5.1 and 5.2). Fast Forwarding and Voice Messaging services are not included as part of the Xchange Advantage line. Customers who choose an Xchange Advantage line may still add these features to their service by paying the applicable charges for Fast Forwarding or Voice Messaging services. If the customer wishes to add additional standard features (above the included 8), they may do so at the rates set forth in Section 13.

Local Choice Call Packs are pre-determined packages of local usage minutes for a specific up-front monthly recurring charge. By selecting one of these Choice Call Packs, the customer is able to receive a lower rate on their local usage minutes. If the customer uses more than the included minutes during a billing cycle, an additional minute rate will apply. Local Choice Call Packs are not pro-rated. Each local service line at a service location must have the same local Choice Call Pack. Packaged minutes may be aggregated across all lines at the same service location. Included minutes not used within the billing cycle are lost.
